The Australia Awards Scholarships (AAS) are prestigious international scholarships funded by the Australian Government to offer the next generation of global leaders an opportunity to undertake study, research and professional development in Australia. The scholarships aim to develop skills and knowledge of individuals to drive change and contribute to the development outcomes of their country.

‘The scholarship has allowed me to think about what I want to change in my country for women in engineering. I was selected to be involved in the Women in Leadership Initiative program, providing me leadership skills and confidence to become an ambassador of change for women and their development in PNG.’

EUNICE EVA, PNG
MASTER OF ENGINEERING

WHERE YOU CAN STUDY
CQU has campuses located throughout Australia. Most of our courses are offered at multiple campuses, which means you should be able to choose your preferred location.

Each campus has its own characteristics, catering to individual lifestyle preferences. Whether you enjoy a campus with lush parklands; or a bustling, multicultural campus, you will find one that suits you.
COURSE SPOTLIGHT

MASTER OF PUBLIC HEALTH

**Duration:** 2 years full-time  
**Availability:** Cairns, Melbourne, Sydney  
**Intakes:** March, July  
**CRICOS:** 097511G

This course focuses on providing you with the skills and knowledge to be able to work effectively in community-based and community-led public health.

Community-based public health values respecting the contributions of all community members and partners, promotes shared decision-making and autonomy, builds on the strengths and assets that are already available, and promotes change through the production of knowledge and skills that benefits the whole community.

This is highly sought-after by organisations who are working in international development, community development, health promotion, disaster recovery, rural and remote areas, and those working with First Nations peoples.

MASTER OF PROJECT MANAGEMENT

**Duration:** 2 years full-time  
**Availability:** Brisbane, Melbourne, Perth, Sydney  
**Intakes:** March, July, November  
**CRICOS:** 088198J

This course is designed for current and potential project managers in industry, equipping you with advanced project management principles and techniques.

Students develop the knowledge and skills needed to apply project management principles to project work and address resource management, risk management, business analysis and strategy as used in large commercial and public organisations.

You will undertake a research project and an internship, which will further prepare you to contribute to future growth and change in the projects you are involved in, and provides an opportunity to extend your knowledge through coursework and research into project arrangement. All of the unit materials are aligned to the Project Management Institute (PMI) global standards and core bodies of knowledge.
