

# International Gambling Conference 2018

12-14 February 2018      Auckland, New Zealand

Hosted by the Problem Gambling Foundation of New Zealand &  
Gambling & Addictions Research Centre, AUT Univeristy  
[www.internationalgamblingconference.com](http://www.internationalgamblingconference.com)

## Flipping the iceberg on gambling harm, mental health and co-existing issues

Gambling harms rarely occur in isolation. Typically gambling problems share co-morbidity with a range of other harmful behaviours, environmental or situational factors, or poor mental health, such as alcohol use and depression. At IGC 2018 we hope to 'flip the iceberg' and better understand what lies beneath the surface. Send us your abstracts and join us in 2018.
