WELCOME TO CQUUNIVERSITY

At CQUUniversity Australia, you can choose from a wide variety of TAFE and university qualifications. With seamless pathways between short courses, certificates and diplomas, through to undergraduate, postgraduate and research higher degrees, we can help you be what you want to be.

WHY POSTGRAD?

ADVANCE YOUR CAREER
Gain the knowledge, skills and confidence to take the next step in your career with a postgraduate qualification. Postgraduate study has been shown to lead to improved salary and employment outcomes compared to undergraduate study, with an increase in median salary of $21,000*.

*2017 Graduate Outcomes Survey

EXPLORE A NEW DIRECTION
A postgraduate qualification can also provide the platform for a change of career. Many postgraduate courses build on your current knowledge and allow you to explore new areas of interest.

FORMALISE YOUR SKILLS
A postgraduate qualification is the perfect way to get formal recognition for your experience while further developing your skills and knowledge. This is the ideal way to close the gap between real-world experience and a qualification.

JASON CLERY, MASTER OF BUSINESS ADMINISTRATION

‘I approached a number of universities before deciding on CQUniversity. For me it was very important to pick a university which had a good reputation for online education.’
At CQUniversity we focus on our students’ needs and that means responding to what, how and where you want to study. Whether you are seeking to advance your skills, alter your career direction, step up to the next level or want to kick-start a new career, our broad and ever-growing range of postgraduate courses gives you the choice to be what you want to be.

A LEADER IN ONLINE EDUCATION
As one of Australia’s leading providers of flexible education and training, all of our postgraduate courses are available online, allowing you to balance your study with family, work and other commitments. We work hard to deliver the latest techniques in online study, and provide access to facilities and support at over 20 locations across Australia. Choose to study online at CQUni and you will enjoy the flexibility of studying your degree where and when it suits you.

STATE-OF-THE-ART FACILITIES
Whether you’re studying on campus, attending an in-person component of your course or meeting up for a group assignment, you’ll benefit from access to state-of-the-art, purpose-built facilities providing valuable experience in real-world settings. If you’re looking for a quiet place to study, take advantage of our modern study spaces, libraries, computer labs and free WiFi.

STUDY AT YOUR OWN PACE
Balancing work, life and study is challenging. That’s why we offer the flexibility to tailor your study to suit your lifestyle with many of our courses available as full- or part-time options over three terms. Adjust your study load to suit your circumstances, whether you’re looking to fast-track your degree, take a break or progress through your course at a steady pace.

Our teaching experts employ a creative and collaborative approach to guiding and supporting you through your postgraduate studies.
INDUSTRY RELEVANCE
Our courses are designed alongside industry to prepare you with up-to-date, real-world knowledge and skills. Our strong relationships with numerous industry partners, from both public and private sectors, allow us to deliver real benefits to our students, such as work-integrated learning, networking opportunities and study abroad experiences.

EXCELLENCE IN TEACHING
Our award-winning academics and teaching teams make a real impact on the communities and industries we serve. Our teaching experts employ a creative and collaborative approach to guiding and supporting you through your postgraduate studies. The innovative teaching practices they use will help you gain and develop your critical thinking and problem-solving skills and enhance your knowledge in your chosen study area.

GLOBAL CONNECTIONS
CQUniversity has over 100,000 registered alumni across the globe so, no matter where you are in the world, you can enjoy the opportunity to connect and expand your personal and professional networks.

OUTSTANDING SUPPORT
At CQUniversity, we want you to succeed. If you need help along the way, take advantage of the wide range of services available to you, including mentoring, counselling, accessibility support, Indigenous student support and career advice. Find out more about these services at www.cqu.edu.au/studysupport.

All of our postgraduate courses are available online, allowing you to balance your study with family, work and other commitments.

Some courses require the completion of a degree in a specified study area. *Not all courses are available for full-time and part-time study. **Some course durations may differ. ^^May not be applicable for all courses. Recognition of professional experience subject to approval by CQUniversity course representative. For course specific information visit [www.cqu.edu.au/exploredegrees](http://www.cqu.edu.au/exploredegrees).

### RESEARCH HIGHER DEGREES

Unlike coursework study, a research higher degree does not follow a structure of lectures, tutorials, assessment items and examinations. Rather, a research higher degree is a program of supervised research and study leading to the preparation and submission of a thesis. You will contribute new knowledge to your chosen field in collaboration with our strong and reputable research community.

Find out more about Research Higher Degrees at CQUniversity from page 38 of this guide or at [www.cqu.edu.au/rhd](http://www.cqu.edu.au/rhd).
Our award-winning academics and teaching teams make a real impact on the communities and industries we serve. Our teaching experts employ a creative and collaborative approach to guiding and supporting you through your postgraduate studies.
If you have a bachelor degree in another discipline and are interested in developing skills and knowledge in the accounting field to enhance your current role or enter a new career, CQUniversity has a postgraduate option to suit you.

The Graduate Diploma of Professional Accounting extends the content covered in the graduate certificate to continue your progression toward qualification as a professional accountant. You’ll learn about economics, Australian commercial law, management accounting, statistics for managerial decisions and more. Upon successful completion of this course, you’ll be eligible to articulate into the masters course if you choose.

CQU’s Master of Professional Accounting enables you, as a graduate from a non-accounting background, to qualify as an accounting professional. This course is accredited by the three accounting professional associations in Australia and leads to a recognised professional qualification. There are 16 units in this course with credit transfers if you have entered the course via the Graduate Certificate and Graduate Diploma of Professional Accounting.
BUSINESS COURSES

BUSINESS

No matter your business career goals, CQU has a postgraduate study option to meet your needs. If you have experience but no qualification, the Graduate Certificate in Management may be ideal for you. The Master of Business Management is suitable if you already hold a bachelor degree. If you’re interested in research, our Master of Business or Doctor of Philosophy may suit you.

CA81 - MASTER OF BUSINESS

Undertake world-class research at CQU with the Master of Business. This two-year course involves supervised research focused on a particular area of interest you may have, such as in business, management or commerce. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your chosen field.

CL21 - MASTER OF BUSINESS MANAGEMENT

CQU’s Master of Business Management is an innovative degree ideal for professionals of any field interested in business management. The course is a discipline-based degree with core units in applied business research, accounting, finance, human resource management, marketing and business communication. You may select a major in marketing, international business, sustainable tourism or social innovation.

CD60 - DOCTOR OF PHILOSOPHY (BUSINESS AND INFORMATICS)

The Doctor of Philosophy (Business and Informatics) is a four-year course comprised of supervised research, focused on a particular area of interest you may have in a specific business discipline. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

CH76 - GRADUATE CERTIFICATE IN MANAGEMENT

CQU’s Graduate Certificate in Management will provide you with foundational knowledge and skills in business management, human resources, business communication and marketing. This four-unit course provides a pathway into many of our masters courses, providing opportunities for further study in a diverse range of business disciplines.
BUSINESS ADMINISTRATION

Postgraduate study in business administration will appeal to you as a business and management professional if you wish to take the next step in your career. Designed for emerging leaders, our suite of business administration courses offer you a wealth of choice and the flexibility to study a course that aligns to your experience, when and how it suits you. Highly sought after, the Graduate Certificate and Graduate Diploma are valuable qualifications in their own right, as well as being a pathway to admission into the masters course.

CC51 - GRADUATE CERTIFICATE IN BUSINESS ADMINISTRATION

If you have a bachelor degree in a non-business discipline and are looking to develop skills and knowledge in organisational management, the Graduate Certificate in Business Administration is for you. Alternatively, if you have strong experience in the world of business but no formal qualification – or are looking to simply update your skills – this course offers you the chance to get that formal recognition. You will develop the critical conceptual and behavioural capabilities necessary for managing people and organisations, and the key functional business insights surrounding marketing, decision making, financial management and stakeholder engagement. Completion of this course will enable you to articulate to the graduate diploma first and then to the masters (upon successful completion of the graduate diploma). You may also be interested in articulating to other masters courses at CQUniversity depending on your previous work experience and study.

The Graduate Diploma of Business Administration builds on the knowledge and skills covered in the graduate certificate, with an additional eight units across a broad range of topics relating to aspects of management and business administration. You will develop key competencies crucial for successful business leadership and the management of people, and learn how to apply these in an emotionally-intelligent way. You will also develop knowledge and capabilities related to key business functions of strategy, finance, marketing, organisational and industry structure, operations and business analytics, and the legal issues that affect managers, leaders and organisations. On completion of this course you may choose to articulate into the CL20 Master of Business Administration.

MBA

CQU’s unique offering of two different Master of Business Administration (MBA) courses allows you to choose the perfect option for your lifestyle, budget, career goals and learning preferences. Choose from our more traditional and highly-ranked Master of Business Administration or the Master of Business Administration (Leadership) – our nimble, self-paced and affordable online option.

CL20 - MASTER OF BUSINESS ADMINISTRATION

Available to study via direct entry or by articulating through the Graduate Certificate and Graduate Diploma in Business Administration suite, CQU’s Master of Business Administration is a 12-unit course that will enhance your understanding and application of best-practice management and business knowledge from a strategic perspective to improve organisational effectiveness. While undertaking this course, you will gain differing perspectives and approaches to current and emerging business issues through interaction with academics, colleagues and members of the business community, enabling you to competently lead, manage, and facilitate organisational change in a global context. You’ll be provided with opportunities, skills and knowledge to develop your management and leadership responsibilities in a broad range of areas, including strategy, marketing, people management, operations management, finance and change management. CQU’s Master of Business Administration is ranked ninth in the Australian Financial Review Boss MBA 2017 rankings and in the top tier one level for all Australian MBAs in CEO magazine.
‘I had such a wonderful learning experience during my time at CQUniversity. I’ve been inspired by leaders that have done amazing things in their countries, communities and workplaces and it’s been incredible finding out exactly what it is that motivates them.’

JULIE IRWIN
MASTER OF BUSINESS ADMINISTRATION

CQUniversity’s new Master of Business Administration (Leadership) delivers the ultimate in affordable, lean and ultra-flexible education. It’s a bona fide MBA packaged for independent learners and self-qualified applicants. Delivered entirely online and designed for busy emerging leaders, the course includes only the essentials. You will gain advanced skills and knowledge in the core business fields of accounting, finance, law, marketing, economics, human resources, and operations, as well as learn research methods relevant to business analysis and strategy. In addition to this, the course supplements these core areas with a focus on leadership in a contemporary business environment. You will develop the capacity to resolve problems, create innovative solutions, and generate entrepreneurial opportunities. This 11-unit course offers you the flexibility to study when it suits you, and is not bound by term dates or assessment submission deadlines. You can start anytime and finish in as little as 12 months or up to five years. Perfect for the self-motived learner, each unit requires 100 – 150 hours to complete with an hour of included academic contact for learning support, no group-work and opt-in only next-gen networking.

FINANCIAL PLANNING

Are you are a practicing financial planner who needs to upgrade your qualifications to meet the education standards required for the financial planning profession? The Graduate Diploma and Master in Financial Planning will satisfy the requirements of the Financial Planning Education Council.

CL67 - GRADUATE CERTIFICATE IN FINANCIAL PLANNING*
CL65 - GRADUATE DIPLOMA OF FINANCIAL PLANNING*
CL66 - MASTER OF FINANCIAL PLANNING*

The Graduate Certificate in Financial Planning is four units, providing foundation knowledge of financial planning. The Graduate Diploma of Financial Planning is eight units in total, comprising the four units of the graduate certificate plus an additional four units. The graduate diploma extends the foundational content covered in the graduate certificate into more specialist areas of financial planning. The Master of Financial Planning is 12 units of study, where eight articulate from the graduate diploma. The masters offers advanced content, building on the topics covered within the graduate certificate and diploma. Topics covered throughout the three courses include superannuation and wealth creation, retirement and estate planning, risk management, tax and commercial law, money and capital projects and, financial planning practice and professional advice. The graduate diploma and master courses meet the accreditation requirements of the financial planning industry.

* Course availability subject to academic board approval.
Social innovation is becoming increasingly important to both modern organisations and the communities they operate in, as they embrace the need for creative and resourceful solutions to the challenges facing the modern world. If you want to focus specifically on social innovation, the Graduate Certificate in Social Innovation will suit you. If you are looking for a broader perspective on social innovation, you should consider the Master of Business Management.

CV88 - GRADUATE CERTIFICATE IN SOCIAL INNOVATION

This course will be of interest if you want to develop your capacity for social entrepreneurship, entrepreneurial influence and inspiring a positive impact in the world. Social innovation focuses on addressing the root causes of social issues and works for systemic change. A foundation in business strategies and social innovation will equip you with the capacity to be an agent of change in all walks of life.

CL21 - MASTER OF BUSINESS MANAGEMENT

This course provides you with the opportunity to specialise in innovation with a six-unit major exploring the contemporary issues in social innovation, sustainable business development, and strategic innovation, alongside project and research units. You’ll also establish a broad management base with six core units in applied business research, accounting, finance, human resource management, marketing and business communication. The final four units consist of electives from other majors which include international business, sustainable tourism and marketing. There is also the option to complete one unit as an internship with an organisation of your choice.
INTERNATIONAL BUSINESS

If you are interested in studying international business and have a bachelor degree, the Master of Business Management may suit your needs. If you have a strong background in international business but no formal qualifications, the Graduate Certificate in Management can get you started and provides a pathway to the Master of Business Management.

CH76 - GRADUATE CERTIFICATE IN MANAGEMENT

The Graduate Certificate in Management allows you to gain sought after skills in emerging new world markets, global governance and globalisation in the context of foundational business management concepts. You will develop an understanding of business management, human resources, business communication and marketing and explore contemporary business issues, organisational and business practices. This four-unit course also provides a pathway into many of our masters courses, providing opportunities for further study.

CL21 - MASTER OF BUSINESS MANAGEMENT

Gain a well rounded international business qualification with our innovative Master of Business Management, designed for professionals in any field. Your study will include a six-unit major in international business, where you will explore global business marketing, international commercial law, financial management and human resource management, research in business, and strategic innovation. You will also gain valuable broad management skills with six core units in applied business research, accounting, finance, human resource management, marketing and business communication. You will round out your studies with four elective units from the other available majors of marketing, sustainable tourism and social innovation, or an internship with an organisation of your choice.
If you want to further your management skills, you can choose to study in a business, health services or engineering management context. These courses will suit you if you are an experienced manager or are considering moving into management.

CH80 - GRADUATE CERTIFICATE IN HOSPITAL AND HEALTH SERVICES MANAGEMENT

The Graduate Certificate in Hospital and Health Services Management is designed to meet the needs of current and up-coming managers in middle to senior leadership positions in a complex and dynamic health environment. This course will equip you with the knowledge and practical tools to manage a health program within the Australian health-care setting. Our direct workplace links will help you develop an ability to apply your knowledge in a practical manner across multidisciplinary health settings.

CH76 - GRADUATE CERTIFICATE IN MANAGEMENT

If you have work experience but no prior undergraduate qualification, this course can help you start your postgraduate management studies. Providing you with foundational knowledge and skills in business management, human resources, business communication and marketing, you will explore contemporary business issues, organisational and business practices and examine the functions of a diverse range of organisations. This four-unit course also provides a pathway into many of our masters courses, providing opportunities for further study.

CL21 - MASTER OF BUSINESS MANAGEMENT

CQUniversity’s Master of Business Management is an innovative 16-unit degree ideal for professionals of any field interested in gaining broad management skills. The course is a discipline-based degree with core units in applied business research, accounting, finance, human resource management, marketing and business communication. You will combine a comprehensive range of management units with a major in marketing, international business, sustainable tourism or social innovation, allowing you to tailor your studies to your field of interest. In addition, you will have the opportunity to select elective units that may include an internship with an organisation of your choice.

CC74 - MASTER OF MANAGEMENT FOR ENGINEERS

If you are an engineer wanting to develop your knowledge and skills in business, the Master of Management for Engineers has been designed for you. This course helps you to identify and apply appropriate solutions to the management of projects, particularly in the areas of leadership, people, organisations and operational management, governance, project management, systems theory and strategic integration, and innovation. An advantage of studying at CQUniversity is the involvement of professionals from other disciplines such as management, business, marketing and accountancy, who use real-world engineering examples as part of their teaching strategies.

MARKETING

If you have a bachelor degree and are interested in postgraduate study in marketing, the Master of Business Management may suit you. If you have a strong background in marketing but no formal qualifications, the graduate certificate will help you expand your knowledge, gain formal qualifications and provide a pathway to further study with the Master of Business Management.

CH76 - GRADUATE CERTIFICATE IN MANAGEMENT

With a unit dedicated to marketing management and digital communication, this course allows you to develop specialist marketing skills in the context of broader business management concepts. Alongside your marketing unit, you will gain foundational knowledge and skills in business management, human resources and business communication. This four-unit course also provides a pathway into many of our masters courses, providing opportunities for further study.

CL21 - MASTER OF BUSINESS MANAGEMENT

The Master of Business Management will help you advance your marketing career by undertaking a dedicated marketing major, supported by foundational business management skills. As part of your marketing major you will explore the science of consumer behaviour, service industry marketing, global business marketing, strategic marketing and metrics, research in business, and strategic innovation. This is an innovative 16-unit degree, developed for professionals of any field. You will complete six core units in applied business research, accounting, finance, human resource management, marketing and business communication. You will then choose four elective units from other majors, including international business, sustainable tourism and social innovation, or an internship with an organisation of your choice.
Sustainable tourism is integral to a healthy tourism sector and CQUniversity’s courses provide you with relevant and contextual exploration of current and evolving theory and practice. If you want to focus your studies on sustainable tourism, the Graduate Certificate or Master of Sustainable Tourism will suit you. If you are seeking a broader perspective, consider the Master of Business Management.

**CH77 - GRADUATE CERTIFICATE IN SUSTAINABLE TOURISM MANAGEMENT**

Our Graduate Certificate in Sustainable Tourism Management will equip you with an understanding of global sustainable tourism principles and their management, based on the concepts of the triple bottom line approach. On successful completion of the course, you will have a greater awareness of the negative impacts of unplanned growth and its linked stresses, and understand how to apply the core elements of sustainability to the development and ongoing management of tourism businesses and destinations.

The aim of the Master of Sustainable Tourism Management is to provide you with an advanced understanding of the sustainable tourism practices that are in place worldwide. With a specific mission to ensure you collaborate and engage with diverse communities, the course will focus on the economic, environmental and socio-cultural aspect of sustainable tourism management. It is based on social innovation foundations and empowers you to liaise directly with industry.

**CV89 - MASTER OF SUSTAINABLE TOURISM MANAGEMENT**

Our Master of Sustainable Tourism Management is to provide you with an understanding of sustainable tourism alongside valued business management skills. The six-unit sustainable tourism major allows you to explore tourism as a strategy for sustainable development, tourism impacts on community, culture and heritage, management of tourism in natural and protected areas, research in business and strategic innovation. This innovative 16-unit degree is ideal for professionals of any field and includes six core units in applied business research, accounting, finance, human resource management, marketing and business communication. Your final four units will be made up of four units of your choice from the other available majors of marketing, international business, and social innovation or an internship with an organisation of your choice.

**CL21 - MASTER OF BUSINESS MANAGEMENT**

Our Master of Business Management allows you to develop a specialist understanding of sustainable tourism alongside valued business management skills. The six-unit sustainable tourism major allows you to explore tourism as a strategy for sustainable development, tourism impacts on community, culture and heritage, management of tourism in natural and protected areas, research in business and strategic innovation. This innovative 16-unit degree is ideal for professionals of any field and includes six core units in applied business research, accounting, finance, human resource management, marketing and business communication. Your final four units will be made up of four units of your choice from the other available majors of marketing, international business, and social innovation or an internship with an organisation of your choice.

**LOOKING FOR PROJECT MANAGEMENT?**

- **CC33 - Graduate Certificate in Project Management** – page 23
- **CV81 - Graduate Diploma of Project Management** – page 23
- **CV84 - Master of Project Management** – page 23

**TOURISM COURSES**

**TOURISM**

Sustainable tourism is integral to a healthy tourism sector and CQUniversity’s courses provide you with relevant and contextual exploration of current and evolving theory and practice. If you want to focus your studies on sustainable tourism, the Graduate Certificate or Master of Sustainable Tourism will suit you. If you are seeking a broader perspective, consider the Master of Business Management.
Extend your capacity to operate professionally and artistically in the creative industries with a postgraduate course at CQUniversity. Whether you are currently working in the creative industries field and are looking to specialise or advance your skills and qualifications, or want to enter this exciting and varied area, you will find a course or research higher degree that suits your interests.
CL04 - GRADUATE CERTIFICATE IN CREATIVE AND PROFESSIONAL PRACTICE (MAJOR)

Designed for current and future arts management and community arts practitioners and others in the creative arts industries, this course develops your theoretical and technical knowledge, and cognitive and communication skills. You will choose a major in arts management, community arts, creative practice, arts social innovation, or arts and heritage tourism. You will complete one core unit followed by three units of study in chosen major incorporating development, implementation and review of a real-world project.

CA45 - MASTER OF ARTS

Undertake world-class research at CQUniversity with the Master of Arts. This two-year course involves supervised research focused on a particular area of interest. Your research will lead to the submission of a thesis which makes a significant original contribution to knowledge in your chosen field.

CF08 - MASTER OF LETTERS

This course is a flexible postgraduate degree that provides you with the opportunity to engage in structured reading, research and writing under the guidance of an individual supervisor. The Master of Letters is ideal for you if you have a personal interest in creative writing.

CD61 - DOCTOR OF PHILOSOPHY (ARTS, HUMANITIES AND EDUCATION)

The Doctor of Philosophy (PhD) is a four-year course of supervised research focused on a particular area of interest in a humanities discipline. Your research will lead to the submission of a thesis that makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or of significant and original adaptation, application and interpretation of existing knowledge.
CQUniversity’s Master of Teaching will appeal to you if you wish to pursue a career as a school teacher and have a bachelor degree in a non-education related field. Alternatively, if you are a qualified educator, seeking career advancement or to gain specialist skills, our other postgraduate teaching options will help you achieve your goals.

**CH83 - GRADUATE CERTIFICATE IN EDUCATIONAL LEADERSHIP (MAJOR)**

This course provides leaders in schools, who aspire to higher positions, with the skills and knowledge necessary to advance their career. In this course, you will enhance your role as an educational leader by learning how to create and maintain professional learning communities that lead to educational innovation and change. This course includes two core units as well as two units from your chosen major. You can choose to major in school leadership, disability and inclusion education, early childhood education or Science, Technology, Engineering and Mathematics (STEM). This course aligns with the Australian Institute for Teaching and School Leadership Professional Standard for Principals.

**CV76 - GRADUATE CERTIFICATE IN RELIGIOUS EDUCATION**

This qualification is necessary if you wish to teach in Catholic schools in Australia. You must already be a registered teacher to participate in this course. The course comprises four units that develop your professional knowledge, practice and identity as an educator in religion and religious practices and with significant partners of Christian faith communities in Catholic schools.

**CH82 - GRADUATE CERTIFICATE IN BRAIN BASED EDUCATION**

CQUniversity’s Graduate Certificate in Brain Based Education is an Australian first and is designed to meet the professional development needs of teachers and other relevant professions. Brain Based Education is a specialised domain in the field of education. It focuses on the theory and practice of memory and learning from a neuroscience perspective. Throughout this course, you will develop an understanding of neuroscience principles on how the brain develops, the expression of genes, neuroplasticity, memory and learning, and the impact of the environment on the brain.
CG68 - GRADUATE CERTIFICATE IN TERTIARY AND ADULT EDUCATION
Take your role as a tertiary educator to new heights with this work-based professional development course. Through a focus on reflective practice and innovation, you will enhance your learning and teaching practices, and further develop your capacity for scholarship and research through project engagement that spans four units, incorporating a balance of theory and practice.

CC45 - MASTER OF TEACHING (PRIMARY)
If you wish to pursue a career as a primary school teacher, the Master of Teaching (Primary) could be for you. You must have a bachelor degree in a non-education related field and suitable depth of discipline knowledge in a designated learning area. This postgraduate pre-service teacher education course meets professional registration requirements of the Queensland College of Teachers. After graduating, you will be qualified to teach from Years 1 to 6.

CL05 - MASTER OF TEACHING (SECONDARY)
If you wish to pursue a career as a secondary school teacher and already hold a bachelor degree in a non-education related field, the Master of Teaching (Secondary) is ideal for you. Along with your bachelor degree, you must have suitable depth of discipline knowledge in a designated learning area. This postgraduate pre-service teacher education course meets professional registration requirements of the Queensland College of Teachers. Upon successful completion, you will be able to teach across two teaching areas; a major teaching area (Years 7 – 12) and a minor teaching area (Years 7 – 10).

CQ16 - DOCTOR OF EDUCATION
The Doctor of Education is a four-year doctoral course of supervised research and tasks designed for professional educators. The course comprises structured research tasks, proposal development and a thesis component.

CD61 - DOCTOR OF PHILOSOPHY (ARTS, HUMANITIES AND EDUCATION)
The Doctor of Philosophy is a four-year course of supervised research focused on a particular area of interest you may have in education and teaching. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.
If you have an interest in creative writing and would like to enhance your capabilities in this area, you will find a postgraduate course option at CQUniversity to suit you. Alternatively, if you are interested in an academic or professional career in research, our range of research higher degrees in arts may be ideal for you.

**CA45 - MASTER OF ARTS**

Undertake world-class research at CQUniversity with the Master of Arts. This two-year course involves supervised research focused on a particular area of interest. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your chosen field.

**CU37 - MASTER OF COMMUNICATION**

The Master of Communication is a research higher degree course. It involves supervised research and study in either communication, communication technologies or journalism, and leads to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

**CF08 - MASTER OF LETTERS**

This course is a flexible postgraduate degree that provides you with the opportunity to engage in structured reading, research and writing under the guidance of an individual supervisor. The Master of Letters is ideal for you if you have a personal interest in creative writing.

**CD61 - DOCTOR OF PHILOSOPHY (ARTS, HUMANITIES AND EDUCATION)**

The Doctor of Philosophy (PhD) is a four-year course of supervised research focused on a particular area of interest in a humanities discipline. Your research will lead to the submission of a thesis that makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or of significant and original adaptation, application and interpretation of existing knowledge.

---

**HUMANITIES COURSES**

**ARTS**

My name is Madeline and I completed a Master of Teaching (Primary) at CQUniversity. I have an undergrad degree in human resources and I worked in that field for five years. One day I woke up and was literally like, ‘This is not for me; I’m not enjoying my work. I don’t feel like I’m giving anything back to society, to the community.’ At the time, my partner was studying teaching through CQUni as well. He finished the year before me in 2015 and he’s now in a permanent, high-school position. So, I was inspired by him and what he was doing. I just basically woke up one day and said, ‘I’m going to do it’.

My main reason for choosing CQUni was the online delivery. It provided me with such a flexible, online way of studying and, working full time, I could support myself financially. So being able to have that flexibility to watch a lecture at night time was very convenient for me.

It was definitely my number one reason I chose CQUniversity. I definitely think people who are looking for postgraduate study are looking for the flexible delivery. They might have a young family, or they might be working full time, so I think that that online flexible delivery of courses is really beneficial to postgraduate students. I would recommend CQUni if you want to do teaching, too.
CU56 - DOCTOR OF PROFESSIONAL STUDIES
The Doctor of Professional Studies is a research-integrated, workplace-engaged degree. It will provide you with a course of supervised research and study that focuses on creativity, innovation and enterprise, allowing you to generate and apply new knowledge and skills in a range of professions and occupations. This course is suitable for you if you already have a solid education background but now find yourself dealing with more complex issues and demands in the workplace.

PROFESSIONAL COMMUNICATION
If you want to advance your communications career or are interested in exploring research in the field, our Master of Communication could be ideal for you. Contribute new knowledge to the field while developing valuable research and problem solving skills.

CU37 - MASTER OF COMMUNICATION
This research higher degree course can be studied over two years full time or four years part time. It involves supervised research and study in either communication, communication technologies or journalism and leads to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.
CQUlUniversity’s postgraduate course in aviation will appeal to you if you are seeking a career as a pilot at the recreational, private or commercial level, and are currently studying CQUlUniversity’s Bachelor or Associate Degree of Aviation (Flight Operations).

CL17 - GRADUATE DIPLOMA OF AVIATION (FLIGHT OPERATIONS)

CQUlUniversity’s Graduate Diploma of Aviation (Flight Operations) will provide you with the aeronautical experience required for a career as a commercial pilot. You will build your skills as a pilot, starting with short flights constrained within the aerodrome training area and circuit area right through to flights at the commercial pilot licence level. Along the way, you will conduct long distance flights, visiting multiple aerodromes in regional and outback Australia. You will develop your critical reflection and self-analysis skills as well as analytic, communication and presentation skills. This course must be studied concurrently with either CQUlUniversity’s Bachelor or Associate Degree of Aviation (Flight Operations) in order to obtain both the aeronautical knowledge and aeronautical experience required. Successful completion of your studies will enable you to apply for a Recreational Pilot Licence, Private Pilot Licence, Command Instrument Rating, and Commercial Pilot Licence.

To apply for this course, you must have successfully completed Term 1 of the first year of the Bachelor of Aviation (Flight Operations) or Associate Degree of Aviation (Flight Operations), passed a Class 1 aviation medical, passed a Civil Aviation Safety Authority’s aviation English language proficiency test, hold an Australian Security Identification Card and have the approval of the Head of Course. Find out more about these undergraduate courses at www.cqu.edu.au/aviation.
ENGINEERING COURSES

CQU's postgraduate engineering courses enable Australian-qualified engineers to develop further skills and knowledge either in their current engineering discipline or in a second engineering discipline of interest. For Australian and internationally qualified engineers, if you hold a three or four-year qualification and are seeking recognition as a graduate professional engineer in Australia, our postgraduate courses will help you on your path. Alternatively, if you are an engineer wanting to develop your knowledge and skills in business and management, CQU offers the ideal study option for you.

**Graduate Certificate in Engineering**

Choose from units in areas such as sustainability, mining, project management and rail, or from a range of civil, electrical and mechanical engineering units.

**Graduate Diploma of Engineering**

Involving four units from a range of areas including sustainability, mining, project management or rail, and civil, electrical and mechanical engineering, you’ll enhance your employability as you further your expertise in your profession.

The Master of Engineering provides a pathway for three or four-year qualified engineering graduates both from Australia and overseas to achieve Engineers Australia Stage 1 Competency Standards for Professional Engineers. This course incorporates the units from the Graduate Certificate and Graduate Diploma of Engineering in addition to completion of a major research project that will demonstrate your ability to work as a professional engineer. Those who have progressed from the graduate certificate and graduate diploma courses within this suite will be able to obtain credit for units already completed.

**Master of Management for Engineers**

If you are an engineer wanting to develop your knowledge and skills in business, the Master of Management for Engineers has been designed for you. This course helps you to identify and apply appropriate solutions to the management of projects, particularly in the areas of leadership, people, organisations and operational management, governance, project management, systems theory and strategic integration and innovation. An advantage of studying at CQU is the involvement of professionals from other disciplines, such as management, business, marketing and accountancy, who use real-world engineering examples as part of their teaching strategies.

**Doctor of Philosophy (Sciences, Engineering and Health)**

The Doctor of Philosophy (PhD) is a four-year course involving supervised research focused on a particular area of interest you may have in an engineering discipline. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.
If you currently work in asset and maintenance management, CQUniversity’s suite of postgraduate study options in this discipline will be of interest to you. These courses are specifically aimed at those currently working in this field, as they are designed to integrate your experience as a maintenance practitioner and build on that foundation by introducing theories and concepts to develop your professional skills, knowledge and abilities, enhancing your career opportunities.

**CC19 - GRADUATE CERTIFICATE IN ASSET AND MAINTENANCE MANAGEMENT**

Enhance your career prospects by completing the Graduate Certificate of Asset and Maintenance Management – a course that allows you to learn about maintenance systems and strategies, and resource allocation in just four units. This course is innovative and practical in its approach, providing you with the ability to excel in the field of maintenance, reliability and engineering management. Upon completion, you have the opportunity to progress to the graduate diploma and masters courses in this suite and gain credit for units already studied in this course.

**CC20 - GRADUATE DIPLOMA OF ASSET AND MAINTENANCE MANAGEMENT**

The Graduate Diploma of Asset and Maintenance Management builds on the content introduced in the graduate certificate and equips you to lead in a maintenance environment. Customise your course with a choice of units in areas including maintenance audits, condition monitoring and tribology, reliability, turnaround maintenance and materials management. Credit is given for this course towards the masters course in this suite if you choose to continue your studies in this area.

**CC18 - MASTER OF ASSET AND MAINTENANCE MANAGEMENT**

The masters course was extremely well-developed, subject-wise, and we had an extremely good lecturer and subject matter expert in that field. He was able to customise his delivery of the training to my needs because the masters program in asset maintenance management, in general, was focused on different industries, not necessarily aviation. Being able to customise the delivery of that specifically for my needs, I found extremely beneficial.

CQU helped support me, and particularly my dissertation supervisor. In fact, despite me studying via distance, my dissertation supervisor actually visited me at my workplace (at the time) with Airbus at Brisbane Airport. He was able to assist and guide me and monitor the progress of where I was at with my project. He really assisted me in the transfer between what I was doing in aviation and be able to relate that to different industries. As an undergrad, a lot of university professors were purely theoretical, some of them going their entire career without any actual industry experience. With the CQU Asset and Maintenance Management course, the actual practical, in-industry experience that they brought was very helpful.
The Master of Asset and Maintenance Management provides you with the opportunity to apply the knowledge you have gained to a relevant and contextual research project. It will focus your previous learning and leadership skills on creating opportunities to improve maintenance management practices by investigating and resolving a real-world issue affecting the maintenance of an organisation. To undertake this course you must have completed the Graduate Diploma of Asset and Maintenance Management or hold a bachelor degree in engineering or a related discipline.

CQUnderstanding’s postgraduate project management courses will appeal to you, if you have a bachelor degree and are looking to develop your project management credentials. Alternatively, if you have vocational education and training qualifications in project management and relevant industry experience, or, if you do not hold a formal qualification but have a strong background of work experience, our postgraduate course options can help you gain a professional postgraduate qualification.

CC33 - GRADUATE CERTIFICATE IN PROJECT MANAGEMENT
CV81 - GRADUATE DIPLOMA OF PROJECT MANAGEMENT
CV84 - MASTER OF PROJECT MANAGEMENT

The four-unit Graduate Certificate in Project Management adopts a methodological approach to the application of project processes and highlights the integration of different frameworks to a project. Utilising case studies and practical material, this course illustrates how the concepts of project management meet industry needs. Successful completion of this course will enable you to articulate first to the graduate diploma and then to the masters (upon successful completion of the graduate diploma).

The Graduate Diploma of Project Management provides you with the opportunity to extend your understanding of project management by establishing a deep foundational knowledge base of the theoretical principles, as well as the practical application of project management. The course explores the principles of project management based on recognised international standards, guidelines and frameworks, and examines project management from a technical skills, human skills and systems perspective.

The Master of Project Management course option provides an opportunity for you to extend your knowledge through coursework and research into project management. The conclusion of the course is a research project that can be based on either your workplace or issues that are important to the general project management profession. All the unit materials are aligned to the Project Management Institute (PMI) global standards and core bodies of knowledge.
CHIROPRACTIC

If you are seeking registration as a chiropractor in Australia, CQUniversity’s postgraduate chiropractic course is the ideal option for you.

CC71 - MASTER OF CLINICAL CHIROPRACTIC

As a graduate of CQUniversity’s Bachelor of Science (Chiropractic) the two-year Master of Clinical Chiropractic will enable you to complete the educational requirement for accreditation as a professional chiropractor. While the CQUniversity Bachelor of Science (Chiropractic) is specifically sequenced for optimal articulation, other accredited bachelor’s qualifications will also be considered. During this course you will develop knowledge, skills, values and behaviours necessary to become a primary care chiropractic practitioner capable of delivering patient centred care.

HEALTH SCIENCE

There is still so much to discover in the world of health and science. A research degree with CQUniversity will allow you to contribute to this evolving field.

CQ17 - MASTER OF HEALTH SCIENCE

Undertake world-class research at CQUniversity with the Master of Health Science. This is a two-year course that involves supervised research focused on a particular area of interest you have in health science. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

DEMENTIA STUDIES

CQUniversity’s postgraduate courses in dementia studies will appeal to you if you are currently working in the health-care and welfare sector, or have a vocational education and training or higher education qualification in health or welfare, and wish to obtain the specialised skills and insight to provide care to clients with dementia and their significant others.
DOMESTIC AND FAMILY VIOLENCE STUDIES

Develop your skills and knowledge to respond to domestic and family violence with CQUniversity’s suite of postgraduate courses in this field. If you’re a professional, or seeking employment in criminal justice, child safety, health services or non-government organisations, our courses will help you gain the vital skills needed in the domestic and family violence sector.

CV73 - GRADUATE CERTIFICATE IN DEMENTIA STUDIES

CV78 - GRADUATE DIPLOMA OF DEMENTIA STUDIES

In the Graduate Certificate in Dementia Studies you’ll learn about the issues surrounding dementia and gain an introduction to dementia care concepts that can be immediately applied in practical situations when caring for a person with dementia and their significant others. You’ll also gain insights into the impact of dementia nationally and globally, ensuring that you graduate with the knowledge and skills to apply a holistic approach to the care of people with dementia, regardless of the community in which they reside.

The Graduate Diploma of Dementia Studies examines complex dementia care concepts that can be immediately applied in practical situations when caring for a person with dementia and their significant others. It builds on the body of work delivered in the Graduate Certificate in Dementia Studies.

CV74 - GRADUATE CERTIFICATE IN DOMESTIC AND FAMILY VIOLENCE PRACTICE

CV79 - GRADUATE DIPLOMA OF DOMESTIC AND FAMILY VIOLENCE PRACTICE

CL23 - MASTER OF DOMESTIC AND FAMILY VIOLENCE PRACTICE

The Graduate Certificate in Domestic and Family Violence Practice enables you to deepen your skills and understanding of key practice areas in relation to domestic and family violence. These are reflected in course electives covering child safety, men’s behaviour change and working with victims and survivors. The knowledge and skills you will gain by completing this course are transferable across a wide range of professions and occupations where workers encounter domestic and family violence.

The Graduate Diploma of Domestic and Family Violence Practice provides the opportunity for you to develop advanced industry-related knowledge, skills and competencies to respond to domestic and family violence. You will be able to enhance your learning in key specialist practice areas in relation to domestic and family violence. Units related to responding to victims and perpetrators, and leadership and management are available to you in this course.

CQUniversity’s Master of Domestic and Family Violence provides you with the opportunity to develop specialist knowledge and skills for research, professional practice and further learning in relation to domestic and family violence. You will undertake independent research related to your practice area/s of interest and have the opportunity to enhance your understanding of key domestic and family theories and approaches in fields such as working with victims/survivors and perpetrator behaviour change interventions. You will explore the legal and safety considerations that arise from working in this area and consider ethical, professional and self-management implications for practice. Through its relationship with the Queensland Centre for Domestic and Family Violence Research, this qualification leverages off domestic and family violence research and education insights.

CH81 - GRADUATE CERTIFICATE IN FACILITATING MEN’S BEHAVIOUR CHANGE

This course enables you to develop specialised knowledge and skills to respond to domestic and family violence through working with perpetrators. You will learn about frameworks and theories that support good practice, and strategies to work with male perpetrators who have used violence within their families. You’ll explore the impact of culture and concepts of masculinity and how these influence behaviour. You will gain an understanding of the broader service system that responds to families affected by domestic violence, ethics to guide practice, and how policy and legislation apply to this field.
HEALTHY AGEING STUDIES

If you are a professional working in health-care, welfare or other sectors that may address the needs of the ageing population, CQUniversity’s postgraduate courses in healthy ageing will develop your skills and knowledge in this area.

CV75 - GRADUATE CERTIFICATE IN HEALTHY AGEING
CV80 - GRADUATE DIPLOMA OF HEALTHY AGEING

The Graduate Certificate in Healthy Ageing will equip you to venture into the rapidly-growing market for health services that provide quality care to the ageing population. You will focus on healthy ageing concepts such as preventable diseases, health promotion and active ageing to ensure that you graduate with the knowledge and skills to apply a holistic approach to the care of your clients and community.

The Graduate Diploma of Healthy Ageing examines complex concepts that can be immediately applied in practical situations when caring for anyone who is interested in healthy ageing. It encourages critical investigation into the impact of the rapidly-expanding ageing population, nationally and globally, and ensures that you graduate with advanced knowledge and skills to apply a holistic approach to the care of ageing people, regardless of the community in which they reside.

The image also includes sections on echocardiography, sonography, diagnostic imaging courses, exercise and sport sciences courses, and exciting research opportunities in various fields.
CU90 - MASTER OF HUMAN MOVEMENT SCIENCE

Undertake world-class research at CQUniversity with the Master of Human Movement Science. This is a two-year course that involves supervised research focused on a particular area of interest you may have in exercise and sports science. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your chosen field.

CL02 - GRADUATE CERTIFICATE IN NURSING (INTERNATIONAL REGISTERED NURSE ENTRY)

This course enables you, as an international nurse, to develop advanced knowledge and skills in order to work as a registered nurse in Australia. Building on your existing cultural, theoretical, practical and research knowledge, this course includes a five-day residential school and 240 hours of industry-based learning. On successful completion of this course, you will be eligible for registration as a registered nurse with the Nursing and Midwifery Board of Australia. Referral by the Australian Health Practitioner Regulation Agency is a prerequisite for enrolment into this course.

NURSING COURSES

NURSING

Become a leader in your field and broaden your capabilities and knowledge in clinical nursing, mental health, hospital and health services management with a postgraduate nursing course at CQUniversity. Alternatively if you’re seeking a course that will allow you to register as a nurse following a lapse in your registration, CQUniversity has the ideal re-entry course option for you.

CL56 - GRADUATE CERTIFICATE IN MENTAL HEALTH NURSING

CC69 - GRADUATE DIPLOMA OF MENTAL HEALTH NURSING

CL24 - MASTER OF MENTAL HEALTH NURSING

If you are a registered nurse looking to develop your mental health nursing credentials, CQUniversity has a postgraduate course to suit you.

The Graduate Certificate in Mental Health Nursing will provide you with the foundational skills and knowledge required to practice in this area of nursing specialisation. You will develop the ability to undertake mental state assessments, diagnostic formulations and risk assessments, and to critically evaluate your application of these skills to the clinical setting. You will gain skills and knowledge on psychotropic medication, and explore ethical issues associated with drug use in this particular group of consumers. Upon completion of this course, you may choose to articulate to the graduate diploma.

The Graduate Diploma of Mental Health Nursing builds on the graduate certificate and will prepare you at the professional level of clinical practice to apply advanced knowledge and skills in mental health nursing across a range of mental health practice settings. Upon completion of this eight-unit course and the required hours of clinical supervision, you will be eligible to apply to the Australian College of Mental Health Nurses to become a credentialed mental health nurse.

The Master of Mental Health Nursing option extends the application of knowledge and skills acquired in the graduate diploma and provides you with the opportunity to research issues relating to your practice. You will be required to explore the social and political context of contemporary mental health practice with particular attention to an exploration of the recovery model and recovery oriented strategies for mental health practice, the transformative power of stories, creating meaningful relationships and advanced therapeutic interventions.

CH80 - GRADUATE CERTIFICATE IN HOSPITAL AND HEALTH SERVICES MANAGEMENT

The Graduate Certificate in Hospital and Health Services Management is designed to meet the needs of current and up-and-coming managers in middle to senior leadership positions in a complex and dynamic health environment. This course will equip you with the knowledge and practical tools to manage a health program within the Australian health-care setting. Our relevance to contemporary workplaces will help you develop an ability to apply your knowledge in a practical manner across multidisciplinary health settings.

CH79 - GRADUATE CERTIFICATE IN NURSING (RE-ENTRY)

If you are a registered nurse whose registration has lapsed (for a period of five years, but not greater than 10 years), this course will enable you to regain your full registration while also assisting you to build your skills and experience, enhancing your career prospects. On successful completion of the Graduate Certificate of Nursing (Re-Entry), you will be eligible for registration as a registered nurse with the Nursing and Midwifery Board of Australia. Referral by the Australian Health Practitioner Regulation Agency is a prerequisite for enrolment into this course.
If you’re seeking career development opportunities or would like to progress towards a leadership role in the field of paramedicine, CQUniversity’s postgraduate courses in this field will help you achieve your goals.

**CL18 - GRADUATE DIPLOMA OF CLINICAL NURSING**

If you are an experienced registered nurse seeking the opportunity to enhance your expert knowledge and skills within your speciality area, the Graduate Diploma of Clinical Nursing is ideal for you. Advance or broaden your skills in specialist practice areas including renal nursing, medical and surgical nursing, intensive care, coronary care, rural and remote nursing, generalist nursing, orthopaedic nursing, oncology, and palliative care. Throughout this course you will develop advanced skills and knowledge to develop professional autonomy to critically reflect on practice and be able to adapt to new situations in the clinical dynamic. You will also gain advanced technical and communication skills to theorise about developments that contribute to professional practice or nursing scholarship.

**CL22 - MASTER OF CLINICAL NURSING**

The Master of Clinical Nursing will prepare you, as a registered nurse, for enhanced clinical decision-making activities, alongside clinical and professional leadership that supports quality care within an evidenced-based and ethical framework. As a student, you will draw on international and national evidence-based theoretical and practical applications of care within your specialty area of practice. As with the graduate diploma, specialist practice areas include renal nursing, medical and surgical nursing, intensive care, coronary care, rural and remote nursing, generalist nursing, orthopaedic nursing, oncology, and palliative care. You will build on your capacity to lead and support clinical outcomes responsive to patient situation, location and condition. You will also have the opportunity to learn research skills and undertake a research project.

**CL64 - GRADUATE CERTIFICATE IN TACTICAL MEDICINE**

This is a four-unit course designed for paramedics, medics, nurses and emergency workers who deal with acute trauma situations, where advanced life support is required in dynamic and high threat environments. The course covers direct threat care, indirect threat care, prolonged field care and casualty evacuation as well as requiring you to undertake a research project. The course will be of interest to you if you are involved with mass casualty and terrorist attack response plans and services.

**CC70 - GRADUATE DIPLOMA OF PARAMEDIC SCIENCE (CRITICAL CARE)**

This career development course will suit if you are currently an intensive care paramedic or hold a previous vocational education and training qualification and wish to deepen your knowledge. Alternatively, if you are an advanced care paramedic wanting to practice as a critical care paramedic (or state equivalent), this qualification provides a pathway for you to do so.

**CH87 - MASTER OF PARAMEDIC SCIENCE (PARAMEDIC PRACTITIONER)**

Designed to meet industry needs, the Master of Paramedic Science (Paramedic Practitioner) will equip you to take on the leadership role of a paramedic practitioner who can provide essential services in the critical care or aeromedical settings, and also in the non-emergency, out-of-hospital, low acuity or primary health settings.
PUBLIC HEALTH AND EMERGENCY SERVICE COURSES

EMERGENCY SERVICE

CQUniversity’s postgraduate course option in emergency service will appeal to you, if you work in emergency service agencies or private, government, non-government and community-based organisations that play a role in emergency and disaster management.

CC27 - GRADUATE CERTIFICATE IN EMERGENCY AND DISASTER MANAGEMENT

The Graduate Certificate in Emergency and Disaster Management recognises the changing nature of emergency and disaster management in Australia, and the important role research and evidence-based practice plays in underpinning contemporary perspectives and approaches. During this course you will draw on the interdisciplinary nature of emergency and disaster management to explore current and emerging trends, and national and international approaches, as well as the key concepts and perspectives that underpin contemporary practice.

PUBLIC HEALTH

The new CQUniversity Public Health suite of courses are innovative with a social-ecological perspective, rather than a medical model which other providers offer. If you are presently working in public health or intending to in the future, the CQuniversity approach will give your career an edge.

CL46 - GRADUATE CERTIFICATE IN PUBLIC HEALTH

CL44 - GRADUATE DIPLOMA OF PUBLIC HEALTH

CL45 - MASTER OF PUBLIC HEALTH

The Graduate Certificate in Public Health is a four-unit course that provides a foundation for understanding the origins and evolution of public health. It explores the principles of community based and community led public health that will enhance your understanding of public health. This course will introduce you to a systems-thinking methodology that influences how public health is viewed. You will study two core units and two electives.

The Graduate Diploma of Public Health expands on the content covered in the graduate certificate of public health. There are six core units covering understanding public health, systems thinking in public health, social epidemiology, public health action and evaluation, global public health and participatory public health. There are two elective units that can be chosen from the non-public health disciplines of healthy ageing, dementia studies, domestic and family violence or positive psychology.

The Master of Public Health provides an option for advanced studies in the field. If you have a relevant health qualification and two years’ experience you can complete this course over 12 units. If you don’t have a health qualification you can complete this course over 16 units. The masters course covers the units from the graduate diploma plus your choice of a practice or research project major or a liberal studies major from multidisciplinary fields such as healthy ageing, dementia studies, domestic and family violence or positive psychology.
CQUniversity’s postgraduate information systems courses are ideal for you if you intend to expand your knowledge, formalise your experience or move into the exciting field of information systems. You may be eligible for entry if you have relevant qualifications and/or considerable relevant professional experience and prior learning.

CC29 - GRADUATE CERTIFICATE IN INFORMATION SYSTEMS

CC47 - GRADUATE DIPLOMA OF INFORMATION SYSTEMS

CC53 - MASTER OF INFORMATION SYSTEMS

Gain professional knowledge and skills with CQUniversity’s Graduate Certificate in Information Systems. You will cover programming, information systems analysis, project management and professional skills. This four-unit course is the first of three postgraduate information systems courses and is the ideal pathway for entry into the Graduate Diploma of Information Systems.

The Graduate Diploma of Information Systems is an eight-unit course that builds on the foundation developed during the graduate certificate. You’ll gain a broad understanding of information systems applications in industry, as well as specific skills in programming, systems analysis, databases, Information Communications Technology (ICT) services management and project management. On completion of the course you may wish to continue your information systems studies with the Master of Information Systems and receive credit for units studied so far.

The Master of Information Systems option is suitable for those with a bachelor degree in any discipline and those who have graduated from the CQUniversity Graduate Diploma of Information Systems. Designed to extend your knowledge and skills in information systems, the masters focuses on business analysis skills at a professional level and developing capacity to manage the functional responsibility for choosing, implementing and maintaining information systems within an organisation in any industry.
If you have relevant qualifications and/or considerable relevant professional experience and prior learning, you may be eligible for entry to CQU’s postgraduate information technology courses. Develop or improve your understanding of IT with a graduate certificate, expand on your knowledge and skills with a graduate diploma, or gain a high level of specialisation with the masters course.

**CC28 - GRADUATE CERTIFICATE IN INFORMATION TECHNOLOGY**

**CC46 - GRADUATE DIPLOMA OF INFORMATION TECHNOLOGY**

**CC54 - MASTER OF INFORMATION TECHNOLOGY**

The **Graduate Certificate** of Information Technology will provide you with a broad understanding of IT applications in industry as well as specific skills in programming, information systems analysis and design, Information Communications Technology (ICT) projects and management. This four-unit course is the first of three postgraduate IT courses. The graduate certificate is the ideal pathway into the Graduate Diploma of Information Technology.

The **Graduate Diploma** of Information Technology is an eight-unit course that builds on the foundation developed during the graduate certificate. Professional skills, databases, data structure, networks and web design are the additional topics that are available in this course. On completion of the graduate diploma, you may wish to continue your IT studies with the Master of Information Technology and receive credit for units studied so far.

The **Master** of Information Technology course option is suitable if you have a bachelor degree in any discipline or have graduated from the CQU Graduate Diploma of Information Technology. The 16-unit course allows you to specialise in either software design and development, network and information security or mobile application development. Credit is given for units completed within the CQU Graduate Diploma of Information Technology.

‘Since I started studying, I realised how practically oriented the course content is. CQU really prepares you for future jobs. You grow in both your education and personally.’

**MO NOROUZZADEH, MASTER OF INFORMATION SYSTEMS**

**D60 - DOCTOR OF PHILOSOPHY (BUSINESS AND INFORMATICS)**

The Doctor of Philosophy (PhD) is a four-year course of supervised research focused on a particular area of interest you may have in information technology and related disciplines. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

» **CV81 - Graduate Diploma of Project Management** – page 23

» **CV84 - Master of Project Management** – page 23
PSYCHOLOGY

Studying forensic psychology is a professional development opportunity that will enhance your knowledge and capability in working within the legal and criminal justice system.

POSITIVE PSYCHOLOGY

The CQUniversity positive psychology suite provides you with a career advancement opportunity by enabling you to expand your professional knowledge in positive human development and wellbeing.

PSYCHOLOGY COURSES

FORENSIC PSYCHOLOGY

This innovative new course focuses on the application of forensic psychology in the investigation and prosecution of criminal offences. There are units on the interviewing of witnesses, the application of offender profiling and crime analysis, and the interviewing of suspects. The course is intended for psychologists involved with forensic work and non-psychologists, including police, social workers and lawyers.

CH84 - GRADUATE CERTIFICATE IN POSITIVE PSYCHOLOGY

This course is a four-unit course designed to equip you to develop and implement positive interventions aimed at improving the mental health of the population in a variety of contexts. Throughout your study, you will explore the history, development and practical application of positive psychology for enhancing the wellbeing and resilience of individuals, groups, communities and organisations. The course is relevant for working with adults, teenagers, and children across a range of local and international contexts, with a focus on enhancing wellbeing, capacities, resilience, and strengths. The curriculum draws on evidence-based theories, models, and best practices from disciplines including positive psychology, coaching psychology, health promotion, positive education, counselling, eco-psychology, and social innovation.

CL19 - GRADUATE DIPLOMA OF POSITIVE PSYCHOLOGY

The Graduate Diploma in Positive Psychology is a four-unit course designed to equip you to develop and implement positive interventions aimed at improving the mental health of the population in a variety of contexts. Throughout your study, you will explore the history, development and practical application of positive psychology for enhancing the wellbeing and resilience of individuals, groups, communities and organisations. The applied nature of the course will enhance your career prospects and employability by helping you to use positive psychology principles within existing or future professional settings. Upon completion of this course, you may articulate to the graduate diploma and then to the masters option.

CL41 - MASTER OF APPLIED POSITIVE PSYCHOLOGY

In the Graduate Certificate of Positive Psychology, you will learn how to design, deliver, and evaluate positive change interventions and programs suitable for individuals, groups, organisations, and communities. The course is relevant for working with adults, teenagers, and children across a range of local and international contexts, with a focus on enhancing wellbeing, capacities, resilience, and strengths. The curriculum draws on evidence-based theories, models, and best practices from disciplines including positive psychology, coaching psychology, health promotion, positive education, counselling, eco-psychology, and social innovation.
If you are looking to build on a four year undergraduate study sequence in psychology in order to become a registered psychologist, CQUniversity has two postgraduate course options suitable for you.

**CG17 - MASTER OF CLINICAL PSYCHOLOGY**

This course is a fifth- and sixth-year psychology course that, upon completion, allows you to apply for registration as a general psychologist and enrolment in the relevant registrar courses for endorsement as a clinical psychologist. Completion of this course provides you with the opportunity to apply for registration as a clinical psychologist. The Master of Clinical Psychology is an intensive two-year course. The first year of the course is centred around the University’s psychology clinic. In the second year of the course you will extend your clinical practice skills with two external placements.

**CL68 - MASTER OF PROFESSIONAL PRACTICE**

Our Master of Professional Psychology provides a pathway to become a registered psychologist. Following the completion of a four-year Australian Psychology Accreditation Council accredited sequence in psychology, this one-year course will assess your knowledge and skills in the core competencies required to practice psychology in Australia. This course involves seven core units plus an elective unit chosen from forensic psychology, health psychology, positive psychology or traumatic stress management. You will complete a minimum of 300 hours of supervised practical and skills training. Following your study, you will be eligible to undertake a sixth year internship (supervised placement). Upon completion of your one-year internship, you will be eligible to apply for registration as a general psychologist.

**TRAUMATIC STRESS MANAGEMENT**

If you are a professional who works with post-traumatic stress disorder (PTSD) cases, this new CQUniversity course will be of interest to you. It offers a professional development opportunity in focusing on current best practice management guidelines for PTSD.

**CL60 - GRADUATE CERTIFICATE IN STRESS AND TRAUMA RESPONSE**

**CL59 - GRADUATE DIPLOMA OF TRAUMATIC STRESS MANAGEMENT**

As a clinician, peer support officer, counsellor or other professional working with clients diagnosed with post-traumatic stress disorder (PTSD), this new suite of courses will appeal to you. These courses explore the provision of best-practice management guidelines in the management of clients diagnosed with PTSD. Your studies will focus on areas such as group facilitation, coaching for positive change, human factors in complex systems, health psychology and rehabilitation, understanding stress and trauma, first responder occupational health, plus wellbeing and more. This will help you to gain advanced skills and knowledge required to assist individuals with the management of PTSD.

The Graduate Certificate in Stress and Trauma Response is a four unit course whilst the Graduate Diploma of Traumatic Stress Management is 8 units, including the 4 covered in the Graduate Certificate.

The Master of Applied Positive Psychology option extends the application of knowledge and skills acquired in the graduate diploma and provides you with the opportunity to undertake an applied research project in your final year. This involves the design and implementation of a wellbeing and resilience intervention, culminating in the production of a thesis. The graduate diploma and masters course options have been developed with support from the Wellbeing and Resilience Centre at the South Australian Health and Medical Research Institute (SAHMRI).
SCIENCE COURSES

SCIENCE

Have you been looking for research opportunities that extend your scientific knowledge? A CQUniversity research higher degree will allow you to develop both your research and scientific credentials.

CA40 - MASTER OF APPLIED SCIENCE

The Master of Applied Science is a two-year research higher degree course. It involves supervised research and study in a wide variety of scientific disciplines. Your study will lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.

CD62 - DOCTOR OF PHILOSOPHY (SCIENCES ENGINEERING AND HEALTH)

The Doctor of Philosophy (Sciences, Engineering and Health) is a four-year course of supervised research focused on a particular area of interest you may have in science disciplines. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.
As a professional seeking career advancement or the opportunity to develop your skills and knowledge, you’ll find a postgraduate course in accident forensics that appeals to you. Designed to provide specialist training and education in accident forensics and investigation, and safety science, CQUniversity’s postgraduate courses in this field are an ideal option for you if you have a personal and professional interest in this area.

CC63 - GRADUATE CERTIFICATE IN ACCIDENT PHENOMENOLOGY
If you are a professional wanting to develop your knowledge and skills in safety accident investigations, already have an unrelated degree or have experience as a safety science practitioner, this is the ideal course for you. During the course you will learn about safety and accident phenomenology and principles of accident investigation. You also have the opportunity to complete authentic learning tasks in the state-of-the-art, purpose-built Forensic Accident Investigation Crash Laboratory. Upon completion of this course, you can continue your accident investigation studies with the Graduate Diploma of Accident Investigation.

CC50 - GRADUATE DIPLOMA OF ACCIDENT INVESTIGATION
Enhance your accident investigation career by completing this specially-designed course. If you have completed the Graduate Certificate in Accident Phenomenology, a degree in an unrelated field, or have experience as a safety practitioner and want to further develop your career in this area, this course will be of interest to you. Core studies in the principles of accident investigation, accident phenomenology, accident forensics, accident analysis and human factors investigation will enhance your skill set. Upon completion of this course you can continue your studies with the Master of Safety Science (Major).

Looking for aviation studies?
» CL17 - Graduate Diploma of Aviation (Flight Operations) – page 20
OCCUPATIONAL HEALTH AND SAFETY

CQU’s suite of occupational health and safety courses will appeal to you if you are looking to develop your knowledge and skills and enhance your career in this field. Whether you have a degree in a related or non-related field, you will find the ideal course to pique your interest and help you reach your professional development goals.

CC76 - MASTER OF ADVANCED SAFETY SCIENCE PRACTICE
If want to develop your skills in avvident investigation, our Master of Advanced Safety Science Practice allows you specialise in two areas of your choice from rail safety, air safety, road safety and industrial accident investigation. This course will be of interest to you if you have completed a Bachelor of Accident Forensics or Graduate Diploma of Accident Investigation as it offers you the opportunity to develop your knowledge and skills in safety science.

CC79 - MASTER OF SAFETY SCIENCE (MAJOR)
The Master of Safety Science (Major) allows you to contextualise your studies to your chosen field of accident forensics of road, rail, air and industrial accident investigation. The preferred pathway into this course is via the Graduate Diploma of Accident Investigation, for which you will receive credit for units already completed. Gain crucial lifelong skills in critical thinking and problem solving, and benefit from the opportunity to complete authentic learning tasks in the state-of-the-art, purpose-built Forensic Accident Investigation Crash Laboratory.

CC49 - GRADUATE CERTIFICATE IN ADVANCED SAFETY SCIENCE PRACTICE
This course will be of interest to you if you have graduated with a Bachelor of Occupational Health and Safety as it offers you the opportunity to further develop your knowledge and skills. You can choose from four specific safety specialisations, including risk engineering, human factors engineering, transport safety management or emergency services safety. Upon completion, you can continue your studies with the Master of Advanced Safety Science Practice.

CC78 - GRADUATE CERTIFICATE IN FATIGUE RISK MANAGEMENT
Develop a comprehensive set of skills and knowledge relating to managing the risks associated with fatigue by completing the Graduate Certificate in Fatigue Risk Management. During this course you will learn about safety and accident phenomenology, human factors and fatigue risk management. Upon completion, you can continue your safety studies by enrolling in the Graduate Diploma of Occupational Health and Safety.

CC77 - GRADUATE DIPLOMA OF OCCUPATIONAL HEALTH AND SAFETY
This course is suitable if you have a degree in an unrelated discipline and are looking to enhance your career by developing occupational health and safety skills, or if you have experience in safety but no degree. Those who have completed the Graduate Certificate in Fatigue Risk Management can also continue their studies with this course. You will study units in human factors, occupational health, risk management, occupational hygiene, occupational health and safety law, safety systems and accident phenomenology. On completion, you can continue your studies with the Master of Safety Science (Major).

CC76 - MASTER OF ADVANCED SAFETY SCIENCE PRACTICE
Our Master of Advanced Safety Science Practice allows you to choose two advanced specialisation practice areas from occupational health and safety or accident investigation disciplines. There are five occupational health and safety specialisations, including risk engineering, human factors engineering, accident forensics, transport safety management, and emergency services safety. This course is designed to suit you if you have completed the Bachelor of Occupational Health and Safety or Bachelor of Accident Forensics as it offers you the opportunity to further develop your knowledge and skills in safety science.

CC79 - MASTER OF SAFETY SCIENCE (MAJOR)
The ability to contextualise your occupational health and safety studies to your area of interest in risk engineering, human factors engineering, accident forensics, transport safety management, or emergency services safety is the appeal of the Master of Safety Science (Major). The preferred pathway into this course is via completion of the Graduate Diploma of Occupational Health and Safety for which you will receive credit.

LOOKING FOR EMERGENCY SERVICE STUDIES?
» CC27 - Graduate Certificate in Emergency and Disaster Management – page 29
Whether you come from an academic, government or industry/practitioner background, CQUniversity has a research higher degree that will provide you with the opportunity to learn and consolidate your research skills, and apply them in practical, real-world settings. Our researchers undertake world-class research in a number of areas, with a focus on relevance to local regions. This includes aspects of regional development, growth in resource industries, environmental management, issues associated with quality health-care in rural and regional communities, and education delivery, specifically through use of modern technology.

At CQUniversity, you’ll benefit from our strong sense of community in research, as well as generous project funding, training and support, so that you can excel in your chosen field of study. Our personalised learning support and collaborative partnerships provide pathways for people from all walks of life and different learning styles to achieve, thrive, and succeed.

The Graduate Certificate in Research will be of interest to you if you are looking for an entry pathway to a masters by research or doctorate, but presently are not able to satisfy the existing admission criteria for the AQF Level 9 or 10 degree. This degree can be completed in six months of full-time study, or one year of part-time study.

CA40 - MASTER OF APPLIED SCIENCE
CA45 - MASTER OF ARTS
CA81 - MASTER OF BUSINESS
CU37 - MASTER OF COMMUNICATION
CA73 - MASTER OF EDUCATION
CA63 - MASTER OF ENGINEERING
CQ17 - MASTER OF HEALTH SCIENCE
CU90 - MASTER OF HUMAN MOVEMENT SCIENCE
CU36 - MASTER OF INFORMATICS

A masters degree by research is usually required for an academic career or a professional career in research, either at a university or elsewhere in the research and development sector. In addition, many discipline-specific employers recognise that the skills developed through a research degree are applicable in the workplace. Masters degrees by research can be undertaken in two years full time or four years part time and lead to the submission of a thesis, which makes a significant original contribution to knowledge in your area of research.
CD61 - DOCTOR OF PHILOSOPHY (ARTS, HUMANITIES AND EDUCATION)

CD60 - DOCTOR OF PHILOSOPHY (BUSINESS AND INFORMATICS)

CD62 - DOCTOR OF PHILOSOPHY (SCIENCES, ENGINEERING AND HEALTH)

The Doctor of Philosophy (PhD) is a four-year full-time or eight-year part-time doctoral course of supervised research focused on a particular area of interest. You can choose to focus your research on arts, humanities and education; business and informatics; or sciences, engineering and health. Your research will lead to the submission of a thesis, which makes a significant original contribution to knowledge. This contribution can be in the form of new knowledge or significant original adaptation, application and interpretation of existing knowledge.

CD84 - DOCTOR OF PHILOSOPHY BY PORTFOLIO

The Doctor of Philosophy by Portfolio enables you to complete a PhD thesis that incorporates your pre-existing peer-reviewed research outputs as a substantial component of the thesis, allowing you to gain recognition for your significant contribution to research in your discipline. You will compile these outputs into a single body of work that is unified through the development of a literature review, discussion and future directions chapters. This degree is applicable for Australian domestic applications only and you must be able to clearly demonstrate existing peer-reviewed research output(s) to be considered for an award of a doctoral degree.

CQ16 - DOCTOR OF EDUCATION

The Doctor of Education is a four-year full-time or eight-year part-time doctoral course of supervised research and tasks designed for professional practitioners and educators. The course comprises of structured research tasks, proposal development and a thesis component.

CU56 - DOCTOR OF PROFESSIONAL STUDIES

The Doctor of Professional Studies is a research-integrated, workplace-engaged degree. It will provide you with a course of supervised research and study that focuses on creativity, innovation and enterprise, allowing you to generate and apply new knowledge and skills in a range of professions and occupations. This course is suited to those who already have a solid education background but now find themselves dealing with more complex issues and demands in the workplace.

Find out more about research higher degrees at CQUniversity at www.cqu.edu.au/rhd.

‘Research at CQUni encourages collaboration with industry and the wider community. There are opportunities to work locally to solve local problems but also opportunities to work with national and international researchers to solve bigger problems. The research evolves with the needs of the community around us. It’s not just research for the sake of research.’

LEIGH STITZ, CQUNI RESEARCHER
IMPORTANT DATES

APPLICATION DATES
Please note that application due dates are prior to the commencement of each term and vary depending on your individual circumstances and the course you choose. Visit www.cqu.edu.au/apply.

TERM DATES

Term 3 2018
Monday, 5 November 2018 – Friday, 8 February 2019

Term 1 2019
Monday, 4 March – Friday, 31 May 2019

Term 2 2019
Monday, 8 July – Friday, 4 October 2019

Term 3 2019
Monday, 4 November 2019 – Friday, 7 February 2020

2018 CQUNIVERSITY OPEN DAYS

Adelaide Thursday, 30 August, 3 – 6 pm
Brisbane Thursday, 9 August, 3 – 6.30 pm
Bundaberg Saturday, 11 August, 9 am – 1 pm
Cairns Sunday, 12 August, 9 am – 1 pm
Emerald Saturday, 1 September, 9 am – 1 pm
Gladstone Thursday, 30 August, 4 – 8 pm
Mackay Saturday, 11 August, 9 am – 1 pm
Melbourne Thursday, 16 August, 5 – 8 pm
