INTERNATIONAL STUDENT
2018
SUN
START UNI NOW GUIDE
WHAT IS SUN?
SUN is a CQUiversity initiative that gives you the opportunity to study CQUiversity units while in senior high school. SUN allows you to enrol in a range of CQUiversity units (subjects) online (by distance education), which you can combine with your regular high school work.

IS SUN FOR YOU?
» Do you want to get a head start with study and your future career?
» Do you want to further challenge yourself in your final years of high school?
» Are you a high achieving student?
» Are you self-motivated and can manage your own time effectively?

If so, SUN could be for you.

WHY STUDY SUN?

Sneak peek
Not sure whether university is for you? SUN provides you with an insight into university life and helps you understand the expectations of studying at a tertiary level. This will help prepare you for the transition from high school to university.

Direct entry
After successful completion of SUN, you may be eligible to apply for direct entry into an undergraduate degree at CQUniversity (excluding quota managed courses). To be eligible for direct entry, you must:
» pass at least one SUN unit from the undergraduate degree you are applying for
» meet all of the prerequisites of the undergraduate degree you are applying for.

You can study SUN units at the same time as your regular high school subjects.

Affordable
As of Term 1, 2018, international high school students will have the opportunity to undertake their first SUN unit at zero cost (excluding textbooks and resource expenses).

Subsequent SUN units are offered at a reduced price which is less than a third of the cost that a regular university student would pay. As a SUN student you can potentially save thousands of dollars.

Credit transfers*
If you enrol as a CQUniversity student after successful completion of senior high school, International Baccalaureate diploma or A Levels, you may be eligible to receive a credit transfer for each SUN unit you have passed. Provided these SUN units are part of your degree at the time of your undergraduate admission, a credit transfer would count towards your degree. This will reduce the number of units you need to study when you start university and may reduce the duration of your university course.

Meet tertiary entry requirements^*
SUN offers a range of units which may assist you in satisfying tertiary entry prerequisites for science and maths related subjects.

HOW MUCH DOES SUN COST?

While undertaking your first SUN unit you will not be liable for a unit fee. Subsequent units (up to an additional three units) are offered at a significantly discounted rate of (AUS$) 500 per unit.

In addition to the unit cost, there may be other expenses such as textbooks and resources. Fees must be paid upfront.

WHERE CAN I STUDY SUN?

SUN units can be studied entirely online, which means you can choose to study at your own pace, as long as you have access to a computer and the internet.

WHAT LEVEL OF COMMITMENT IS INVOLVED?

It is recommended that you dedicate between 10–12 hours of study to each of your enrolled units per week (over a 12–14 week period). Studying SUN units requires good time management skills, the ability to work independently and a proactive attitude. University study is very flexible and this allows you to work your study time around other commitments such as a part-time job or sport.

You can study your SUN unit/s after school and on weekends. You may also choose to study a SUN unit as your sixth subject choice at school. You should speak with your school guidance officer or principal to discuss the best way for you to manage your study commitments.

*Credit transfers toward courses at other Universities should be discussed with the relevant university.
^Students intending to utilise SUN units in order to meet tertiary pre-requisites should discuss this with the SUN Team and/or the relevant university prior to enrolment.
WHAT SUPPORT DO I RECEIVE AS A SUN STUDENT?

Even though you will be studying online, you will still have access to many of the same resources and support services as on-campus CQUniversity students.

SUN Project Officer
A dedicated staff member who will assist you throughout your SUN study journey.

Academic Learning Centre (ALC)
The ALC is a ‘one-stop-shop’ for information, advice and resources related to academic writing, mathematics, science and computing requirements of study at CQUniversity.

Student Life and Wellbeing Centre
This Centre provides you with both academic and personal counselling, as well as assistance with time management and study skills. If you have a disability or medical condition, you are encouraged to register with the Inclusion and Accessibility Service to review your support needs.

AM I ELIGIBLE TO APPLY FOR SUN?
To be eligible to apply for SUN you must be:

» enrolled in Australian Curriculum Year 11 or 12 (or equivalent). UK A Level Curriculum, the International Baccalaureate, Polytechnic*, or other equivalent Senior High School* Curriculum

» achieving equivalent to an average B grade (or better) across all Australian school subjects as per your most recent report card+

» achieve an English level of IELTS 5.5 overall with no bands less than 5.5, or equivalent English. We will also accept IGCSE/GSCE Grade C in English Language and International Baccalaureate MYP Certificate Grade 4 in English.

Courses with non-standard English language requirements are listed p8. For more information visit www.cqu.edu.au/englishreq.

You will also require permission from your principal or school nominee and a parent or guardian.

HOW TO APPLY
To apply for entry into SUN visit www.cqu.edu.au/int-sun and review the How to Apply section.

You must submit a copy of your most recent school report card with the SUN application, as well as gain both parental and school approval.

Applications must be received at least two weeks prior to the commencement of the relevant term.

HOW DO I CHOOSE A SUN UNIT?
Did you know that more than 100 CQUniversity units are available for study as part of SUN?

When selecting the unit you wish to apply for it is important to consider the following questions.

» What career are you interested in pursuing?

» What course is required to pursue that career?

» Does the SUN unit form part of the requirements for that course?

» Is the unit offered in the term you wish to study?

* Delivered in English.

+ GSCE minimum C grade in all subjects, International Baccalaureate Middle Years Program Grade 4 in all subjects. Other qualifications are assessed on a case by case basis.
The best thing about distance education is that it didn’t feel distant at all, CQU Staff were always willing to help with anything and everything, which was extremely encouraging as I was still a little nervous about the whole uni thing.
The tables below show the SUN units available that will help you towards your desired degree.

**SUN UNIT AVAILABILITY**

**BUSINESS AND ACCOUNTING**

Business, accounting and law courses and units have been developed in consultation with, and are regularly reviewed by, industry professionals. This ensures that our qualifications remain up-to-date and meet the latest industry standards and expectations. Our comprehensive and practical study options mean you will graduate work ready and equipped to succeed within your chosen career path.

IMPORTANT DATES

SUN is offered over three university terms, however, not all units are offered in all terms. University terms generally do not run at the same time as your school terms. In some cases you will be studying during school holidays. Each term is 12 weeks in duration followed by an examination period.

2018 TERM DATES

TERM 1
Monday, 5 March – Friday, 1 June
SUN application due date
Friday, 16 February
SUN fee due date*
Tuesday, 27 March

TERM 2
Monday, 9 July – Friday, 5 October
SUN application due date
Friday, 22 June
SUN fee due date*
Tuesday, 7 August

TERM 3
Monday, 5 November 2018 - Friday, 8 February 2019
SUN application due date
Friday, 19 October
SUN fee due date*
Tuesday, 4 December

*Also known as Census Date. This is the last date to withdraw without financial penalty and also the last day to pay your SUN tuition fee (if fee is applicable).
