1 PURPOSE

- 1.1 This Policy and Procedure provides guidance to candidates, supervisors and research administration staff with respect to Commonwealth-funded and University-funded scholarships for research higher degree (RHD) studies.

2 SCOPE

- 2.1 This Policy and Procedure applies to all candidates enrolled in a research higher degree at CQUniversity, including Masters by Research, Doctor of Philosophy, Doctor of Education, Doctor of Professional Studies and Doctor of Philosophy by Portfolio, either in onshore or offshore mode.

3 POLICY STATEMENT

- 3.1 The CQUniversity aims to ensure that only those applicants with a meritorious academic record and demonstrated research capability of a high standard are the recipients of RHD scholarships.
- 3.2 The CQUniversity will award RHD scholarships to candidates and projects that are consistent with the CQUniversity's overall research strategy, particularly in relation to support of research strength areas, achieving research excellence with community impact, and aligning with the University's corporate values.

Research Training Program Scholarships

- 3.3 RTP Scholarships are postgraduate research scholarships in accordance with Section 46-10(b) of the [Higher Education Support Act 2003](#).
- 3.4 The Research Training Program (RTP) provides block grants, on a calendar year basis, to Higher Education Providers to support the research training of domestic students and overseas students undertaking Research Higher Degrees (RHDs). Specifically, the Research Training Program provides for:
- RTP Fees Offset scholarships - which are allocated to individual students by way of satisfaction of their liability for RHD tuition fees;
 - RTP Stipend scholarships - to assist students with their living costs while undertaking a RHD; and
 - RTP Allowances - to assist students with ancillary costs of a RHD (refer to sections 4.10 - 4.14).
- 3.5 Each year, in conjunction with the call for scholarship applications, the University will publish the total number of RTP Stipend Scholarships available for Domestic and International candidates, respectively.
- 3.6 In addition to RTP Scholarships, CQUniversity may fund or co-fund other types of scholarships, including:
- CQUniversity Research Stipend Scholarship/s
 - CQUniversity Research Stipend Scholarship/s (Australian Indigenous)
 - CQUniversity Research Stipend Scholarship/s (Women's)

- CQUniversity Research Top-Up Scholarship/s
 - CQUniversity Research Allowances Scholarship/s (for international candidates who are in receipt of a stipend scholarship)
 - CQUniversity Fees Offset Scholarship/s (for international candidates only), and
 - other scholarships created through partnerships with industry or philanthropic organisations and donors.
- 3.7 Where CQUniversity-funded awards are available by application, CQUniversity will publish information regarding the number and value of stipend scholarships, in conjunction with the call for scholarship applications.

Provisions for Research Scholarships and RHD places awarded previous to 2017

- 3.8 In January 2017, Australian Universities transitioned to the Research Training Program, from the predecessor program known as the Research Training Scheme (RTS). Continuing CQUniversity RHD candidates should note that:
- those who were enrolled under the RTS prior to 2017 will have their enrolment places continued, unaffected, with the balance of the existing tuition-free period available under the RTS being transitioned to an RTP Tuition Offset Scholarship
 - those who were in receipt of a stipend award that was previously supported through the Research Training Scheme will be transitioned to the new conditions of award, as applicable for Stipend Scholarships, effective 1 January 2017 (This is relevant for holders of an Australian Postgraduate Award, International Postgraduate Research Award or International Postgraduate Research Scholarship).
- 3.9 Notwithstanding the provisions of item 3.8, CQUniversity will not consider requests to change the value of stipend payments (either Commonwealth or University funded), where an offer has already been accepted prior to 1 January 2017. Please note: this does not impact on regular indexation of the agreed base value of the scholarship will still occur, as per the Conditions of Award (as per section 4 below).
- 3.10 Continuing candidates may apply for any new awards advertised by the CQUniversity, where all other eligibility criteria are met.

Arrangements for Supervision and Facilities

- 3.11 Provisions for access to facilities and supervisors are as described in the relevant Course Rules and the [Research Higher Degree Supervision Policy and Procedure](#).

4 CONDITIONS OF AWARD

Stipend Scholarship values (payment rates)

- 4.1 For the 2017 grant year, the base full-time RTP stipend rate is \$26,682 and the maximum full-time RTP stipend rate is \$41,682. Scholarship recipients who have been approved for part-time study will receive a pro-rata stipend amount (50% of the total value).
- 4.2 By default, all RTP Stipend Scholarships will be offered at the base rate.
- 4.3 The CQUniversity may choose to contribute CQUniversity funds to provide for additional top-up scholarships only in exceptional circumstances, and with consideration of the following criteria:
- strategic alignment of the proposed research candidature with CQUniversity's research priority areas, as published by the CQUniversity from time to time
 - academic excellence and/or quality of application against the order of merit criteria
 - special project or CQUniversity requirements, and/or
 - support of applicants from under-represented groups such as Aboriginal and Torres Strait Islander people, women (especially in non-traditional disciplinary areas), people living with disability, people in regional and/or remote locations, and those from low socio-economic backgrounds.

- 4.4 On an as-needs basis, the Research Higher Degrees Committee will make a determination in regards to the number and value of any top-up stipends, having regard to the items in section 4.3 above. Such scholarship/s will then be advertised with the top-up stipend rate clearly indicated, together with any additional eligibility criteria that may apply.
- 4.5 A candidate in receipt of a stipend scholarship must not be receiving income from another source to support the student's general living costs, whilst undertaking their course of study, if that income is greater than 75% of the stipend value. In applying this clause, please note that income unrelated to the student's course of study or income received for the student's course of study but not for the purposes of supporting general living costs is not to be taken into account.
- 4.6 The applicable rate of payment must be agreed upon prior to commencement of the award. Once an offer of an award has been accepted by the candidate, the CQUniversity will not consider requests to vary stipend rates beyond the originally agreed value.
- 4.7 The RTP stipend value is indexed annually by the Commonwealth. University-funded stipends will also be indexed annually by the CQUniversity, unless otherwise described in the agreed schedule of award.
- 4.8 The stipend will be paid fortnightly into an account in a bank, building society or credit union, through the University's payroll system. The stipend commencement date will be the date of commencement of study, or in the case of a candidate who is already enrolled, on the date of acceptance of the Stipend Scholarship offer.
- 4.9 It is the responsibility of the candidate to assess the tax liability of their scholarship.

Allowances

- 4.10 RTP allowances may be allocated to domestic stipend recipients only; and University-funded allowances may be allocated to international stipend recipients only. Allowances may cover the following items:
- for international candidates, a standard Overseas Student Health Cover policy approved by the Commonwealth Department of Health and which covers the student and their spouse and dependants (if any) for the period of the award, and
 - for either international or domestic candidates, costs associated with relocation to undertake a research degree in Australia.

Relevant rates and conditions for the above allowances are as set out [Appendix A](#).

Please note: as hard copy submission of thesis is no longer required as part of the CQUniversity examination or conferral process, allowances will not be provided to cover RHD thesis printing and academic publication costs.

- 4.11 Recipients of an Allowances Scholarship are entitled to receive full reimbursement for eligible claims, up to the approved maximum amount. This includes reimbursement for any Goods and Services Tax amounts specified in the receipts provided.
- 4.12 A recipient who voluntarily relinquishes an Allowances or Stipend scholarship within six months of commencement, or who has their candidature terminated within six months of commencement, may be required to refund all or part of any contribution by the CQUniversity to the travel and/or relocation expenses incurred by the candidate in taking up the award. Such a termination would only occur as per the applicable Course Rules.
- 4.13 Allowances scholarships do not provide for:
- living allowances
 - expenses for personal travel (other than relocation)
 - the cost of English language testing, and/or
 - tuition fees for bridging programs or ELICOS programs.

- 4.14 Candidate Project Support Funds and Candidate Conference Travel Support Funds are separate monies made available to CQUniversity RHD candidates, and do not relate in any way to tuition offsets, stipends scholarships, or allowances scholarships.

RTP Fees Offset Scholarships

- 4.15 Fees Offset Scholarships provide for the full costs of tuition liability for a research higher degree, for a specified course length (see section 4.18). RTP Fees Offsets Scholarships are available to eligible domestic candidates only.

CQUniversity Fees Offset Scholarships

- 4.16 At the CQUniversity's discretion, part or full CQUniversity Fees Offset scholarships may be offered to international applicants of outstanding quality, to assist with meeting the costs of tuition liability for a research higher degree, for a specified course length (see section 4.18). Further information relating to these CQUniversity Fees Offset Scholarships is provided in the International Excellence Awards Guidelines.

Other student charges

- 4.17 The candidate is required to pay all other charges so levied by the University or the Commonwealth on the basis of being a RHD candidate. For domestic candidates, this will include the Student Services and Amenities fee, as the SSAF is not provided for under a RTP Fees Offset Scholarship.

Duration of Award (period of support)

- 4.18 The duration of award for Commonwealth-funded and University-funded scholarships are as per the table below:

	Masters candidates	Doctoral candidates[^]	Extensions^{^^}
RTP Fees Offset	Maximum of 2 EFTSL	Maximum of 4 EFTSL	Strictly no extensions available
RTP Stipend	Maximum of 2 EFTSL	Maximum of 3 EFTSL	In exceptional circumstances, doctoral candidates may apply for a maximum of two extensions, of up to 0.5 EFTSL each. No extensions are available for Masters candidates.
RTP Allowances	Paid for the life of the applicable Stipend scholarship (including any approved extension).		
CQUniversity-funded awards (including Women's and Australian Indigenous Awards)	Maximum of 2 EFTSL	Maximum of 3 EFTSL	In exceptional circumstances, doctoral candidates may apply for a maximum of two extensions, of up to 0.5 EFTSL each. No extensions are available for Masters candidates.
CQUniversity Funded Allowances	Paid for the life of the applicable Stipend scholarship (including any approved extension).		
CQUniversity Funded Top-Up Scholarships	Paid for the life of the applicable Stipend scholarship (including any approved extension).		
CQUniversity Fees Offset Scholarships	Maximum of 2 EFTSL	Maximum of 3 EFTSL, or to match the Stipend Scholarship duration, whichever is the greater.	Strictly no extensions available

EFTSL = Equivalent Full-Time Student Load; 1 EFTSL = one year full time study.

^For Doctor of Philosophy, Doctor of Education and Doctor of Professional Studies candidates only. Doctor of Philosophy by Portfolio candidates are eligible to receive stipend support for one EFTSL only, and may apply for an extension of up to 0.25 EFTSL.

^^ This relates to extensions requested by the candidate, because of exceptional circumstances relating to the research & study program. Extensions relating to leave provisions are treated separately (please see sections 4.29-4.36).

- 4.19 For stipend scholarships (either RTP-funded or University-funded), the examination period is not counted toward the EFTSL value. Stipend payments will not be made to students enrolled in examination mode. Please note that the examination unit does not attract a tuition cost.
- 4.20 The duration of any Stipend Scholarship (either RTP-funded or University-funded) will be reduced by any periods of study undertaken:
- towards the degree prior to the commencement of the Stipend Scholarship, or
 - towards the degree during suspension of the Stipend Scholarship (unless the study was undertaken overseas as part of a Commonwealth Government financially supported international postgraduate research scholarship or award).
- 4.21 Candidates who change course during their research degree may be subject to an adjusted duration of award. Please refer to section 4.49 for more information.

Scholarship continuation and extensions

- 4.22 Scholarships will be renewed on an annual basis subject to the candidate maintaining satisfactory progress, as evidenced in candidature progress reports, and as per the conditions in the relevant Course Rules.
- 4.23 The CQUniversity may approve an extension to the duration of a Stipend Scholarship (and any associated Allowances Scholarship) of up to 0.25 EFTSL (for PhD by Portfolio candidates) or up to 0.5 EFTSL (for all other doctoral candidates) provided that:
- the student is making satisfactory progress, and
 - the grounds for the extension relate to the research study and are beyond the control of the candidate.
- The EFTSL values listed above are the maximum period that will be considered for any one extension. Shorter durations will be considered as appropriate to the particular candidature and project.
- 4.24 Doctoral candidates (not including PhD by Portfolio) may apply for up to two extensions. These must be applied for separately. Granting of the first extension in no way guarantees a successful application for a second extension.
- 4.25 Extensions are not available to masters by research candidates.
- 4.26 Requests for an extension must be directed in writing to the Dean, Graduate Studies, and must clearly indicate support by the Principal Supervisor as well as endorsement by the Deputy Dean - Research of the relevant school.

Part-time study

- 4.27 A Candidate may change from part-time to full-time study and vice versa in accordance with the Research Higher Degree Course Rules Policy and Procedure.
- 4.28 A Candidate who is in receipt of a RTP or other Stipend scholarship may be approved to receive a part-time Stipend Scholarship if the candidate has an acceptable reason related to caring commitments, a medical condition, a disability or other circumstance which limits the student's capacity to undertake full-time study for part or all of the course of study.
- 4.29 A candidate who has a part-time Scholarship may revert to full-time study at any time with the permission of the CQUniversity.

Leave

- 4.30 Candidates holding a Stipend Scholarship (either RTP-funded or University-funded) are entitled to receive
- up to 20 working days' paid recreation leave for each year of the award
 - up to 10 working days' paid sick leave for each year of the award

These leave entitlements may be accrued over the life of the scholarship but will be forfeited when the scholarship is terminated.

- 4.31 For periods of illness where the candidate has insufficient sick leave entitlements available under section 4.29, access to additional paid sick leave of up to a total of 12 weeks is possible during the Stipend Scholarship duration, provided that a satisfactory medical certificate has been provided by the candidate.
- 4.32 Leave arrangements for RTP Stipend recipients studying on a part-time basis are calculated pro-rata where periods are specified in working days in the RTP Guidelines. For example, a part-time student on 0.5 EFTSL would be eligible for 10 days recreation leave and five days sick leave per annum.
- 4.33 Sick leave entitlements (including additional sick leave) may also be used to cover leave for candidates with family caring responsibilities.
- 4.34 Candidates who have completed 12 months of their award are entitled to a maximum of 12 weeks paid maternity or paternity leave, where they are the primary caregiver following a childbirth or adoption occurring within the tenure of the award. Unpaid maternity or paternity leave may be accessed through the suspension provisions of the CQUniversity.
- 4.35 Candidates who have completed 12 months of the tenure of the award are entitled to a duration of paid parental leave if they are the partner for a person who has a birth or adoptive event, and that event occurs during the Scholarship Stipend period. The duration of parental leave will be as per the terms available to staff under the [CQUniversity Enterprise Agreement](#).
- 4.36 Where a candidate seeks paid or unpaid leave relating to adoption, an eligible application for leave must be supported by either:
- a statement from an adoption agency or other appropriate body of the presumed date of placement of the child with the candidate for adoption purposes, or
 - a statement from the appropriate government authority confirming that the candidate is to have custody of the child pending application for an adoption order.
- 4.36 The 12 month eligibility periods specified for maternity/paternity leave, adoption leave and parental leave are the same regardless of whether a student is studying on a full-time or part-time basis.
- 4.37 The duration of a scholarship will be increased by any periods of approved paid maternity/paternity leave, or approved additional paid sick leave (beyond the standard sick leave provisions). Multiple periods of short sick leave (less than 10 day duration) may not be accrued over the life of the award for the purposes of extending the scholarship duration.

Leave of absence

- 4.38 Approval may be given for up to 12 months' suspension of a Stipend Scholarship where an approved leave of absence has been granted to the candidate. Such periods of approved suspension will be added to the duration of the award.

Overseas study and Research at Other Organisations

- 4.39 Candidates in receipt of RTP Stipend, Tuition Offset, or Allowances Scholarships may be permitted to undertake a portion of studies overseas, and/or to conduct research at organisations outside CQUniversity on the condition that:
- the candidate maintains enrolment at CQUniversity

- the overseas or off-campus component is approved by the Dean, Graduate Studies, having regard to appropriate resources, facilities and supervision, and
- the candidate maintains satisfactory progress, as described in the applicable Course Rules.

Scholarship Suspension

- 4.40 An RTP Stipend, Tuition Offset or Allowances scholarship, or any University-funded scholarship, may be temporarily suspended:
- if the candidate is on an approved leave of absence (see section 4.37),
 - if the candidate has failed to maintain satisfactory academic progress, or
 - if the candidate has refused the existing supervision arrangements, and the CQUniversity is unable to substitute an appropriate supervision arrangement. Please note that this applies only to cases where the candidate has initiated the change of supervision.
- 4.41 Resumption of a scholarship following a period of suspension will only occur where:
- the candidate meets all eligibility criteria
 - appropriate supervision arrangements are in place, and
 - access to appropriate resources and facilities is available.

Scholarship Termination

- 4.42 An RTP Stipend, Tuition Offset or Allowances scholarship, or any University-funded scholarship, will be terminated:
- at the end of the period of tenure of the award
 - on submission of the thesis
 - if the candidate has failed to maintain satisfactory academic progress
 - if the candidate ceases to be a full-time student and approval has not been obtained from the CQUniversity to hold the Scholarship on a part-time basis
 - if the award holder does not resume study at the end of a period of suspension or approved leave of absence
 - if the candidate ceases to meet the eligibility criteria as specified in this Policy and Procedure, and/or
 - if the University determines that the candidate has committed serious research or behavioural misconduct.
- 4.43 If a scholarship is terminated, it cannot be re-activated unless the termination occurred in error.

Candidates undertaking course transfers, upgrades and downgrades

- 4.44 Candidates who transfer to another university may continue to receive a tuition offset, RTP stipend or RTP allowance only where the new university agrees to accept financial responsibility for continuing the award. CQUniversity funds (including RTP funding allocated to CQUniversity) will not be transferred to other institutions.
- 4.45 CQUniversity-funded scholarships of any description are not transferable to another institution.
- 4.46 Domestic candidates who transfer to CQUniversity from another institution where they were in receipt of an RTP Offset Scholarship, will be eligible to continue that Offset Scholarship for the balance of their remaining candidature, taking into consideration any prior load consumption.
- 4.47 Continuation of Stipend, Top-Up and/or Allowances Scholarships for domestic or international candidates who transfer to CQUniversity from another institution will occur only where CQUniversity agrees to accept financial responsibility for the award. Such agreement must be made prior to the candidate's commencement at CQUniversity.

- 4.48 A scholarship recipient who commences as a research masters candidate, but transfers to doctoral candidature prior to the expiry of the masters-level award, will receive a scholarship extension to the standard doctoral timelines (minus any candidature time already consumed).
- 4.49 A scholarship recipient who commences as a doctoral candidate, but transfers to masters candidature, will have their tuition offset, stipend and/or allowances scholarship benefits continued only to the full extent of the award duration for masters candidates. Candidates who change from doctoral to masters candidature later than two EFTSL into candidature should therefore seek advice about possible tuition liability prior to applying for change of course.
- 4.50 Where a scholarship recipient undertakes a substantive change of topic (as described in the [Change between Masters and Doctoral Research Higher Degree Programs Procedure](#)), the continuation of a Stipend Scholarship (either RTP-funded, or University-funded) will be considered on a case-by-case basis. A change of topic is one that requires a substantive shift of discipline, experimental design or research approach, especially where this results in:
- adjustment to the supervision panel and/or host School
 - change in the Academic Plan and/or Field of Education, and/or
 - major change in the anticipated milestones and/or duration of study.

A candidate who undertakes a substantive change of topic will require the approval of the RHDC Executive to be eligible for continuation of any scholarship benefits.

Undertaking other study whilst in receipt of a scholarship

- 4.51 As per the relevant Course Rules, candidates are not permitted to engage in any academic course of study leading to a qualification which is not an essential part of the award recipient's current degree, unless with prior approval from the Dean, Graduate Studies.

Participation in employment whilst in receipt of a scholarship

- 4.52 As per the relevant Course Rules, candidates who are in receipt of a tuition offset, stipend scholarship, top-up scholarship or allowances scholarship may participate in forms of paid or unpaid employment, voluntary positions or other duties, provided that this does not impede satisfactory academic progress.

Participation in additional research activities whilst in receipt of a scholarship

- 4.53 Candidates must seek approval from the CQUniversity, through the Dean, Graduate Studies, prior to undertaking research activities that are additional to the course of study as prescribed in the Description of Candidature. Examples of such research activities may include optional industry placements, research internships, professional practice or other specific research enrichment activities.
- 4.54 A formal agreement about the timeline to undertake the activity, the duties that the activity will involve, and the date on which usual research higher degree candidature will resume, must be in place prior to the activity commencing.
- 4.55 Arrangements for the continuation, suspension or extension of a scholarship relating to the period of additional research activity will be considered on a case by case basis, having regard to:
- whether the candidate continues to be actively enrolled during the activity
 - whether the research activity is directly related to the candidate's program of research and study, and/or
 - the extent to which the activity can be demonstrated to improve the employability and/or graduate skills and attributes of the candidate.
- 4.56 RTP Offset scholarship candidates may have their scholarship extended by the duration of an additional research activity up to the maximum period of RTP support.
- 4.57 CQUniversity Offset Scholarship candidates may have their scholarship extended by the duration of an additional research activity up to the maximum period of the CQUniversity Offset Scholarship support.

- 4.58 Candidates who are in receipt of a RTP or other Stipend Scholarship may be approved to continue to receive their Stipend Scholarship during the period of additional research activity on a case by case basis, with consideration given to whether:
- The candidate already holds a RTP or other Stipend Scholarship
 - The candidate is not to received other income associated with these activities
 - The maximum duration of the course has not been reached; and
 - The candidate has not yet submitted their thesis for examination.
- 4.59 The CQUniversity reserves the right to suspend or discontinue a scholarship if the candidate does not fulfil the expectations of the agreed research activity, or does not return to research candidature by the agreed date.

5 PROCEDURE

RTP Scholarship Eligibility

- 5.1 In accordance with the Commonwealth Scholarship Guidelines (Research) 2017, to be eligible for a RTP Scholarship a candidate must be a domestic candidate or an overseas candidate enrolled in an accredited RHD course of study at an Australian higher education provider.
- 5.2 To be eligible for an RTP Stipend a candidate must not be receiving income from another source to support the candidate's general living costs while undertaking their course of study if that income is greater than 75 per cent of the candidate's RTP Stipend rate. Income unrelated to the candidate's course of study or income received for the candidate's course of study but not for the purposes of supporting general living costs is not taken into account.
- 5.3 To be eligible for a RTP Fees Offset a candidate must not be receiving an equivalent award of scholarship from the Commonwealth designed to offset RHD tuition fees.

CQUniversity Scholarship Eligibility

- 5.4 To be eligible for a CQUniversity Stipend a candidate must not be receiving income from another source to support the candidate's general living costs while undertaking their course of study if that income is greater than 75 per cent of the candidate's CQUniversity Stipend rate. Income unrelated to the candidate's course of study or income received for the candidate's course of study but not for the purposes of supporting general living costs is not taken into account.
- 5.5 To be eligible for a CQUniversity Fees Offset a candidate must not be receiving an equivalent award of scholarship designed to offset RHD Tuition fees
- 5.6 The following additional criteria apply to CQUniversity Research Stipend Award/s made available for specified equity groups:
- the Women's Award is offered to a female candidate who can demonstrate a break of not less than five years from study
 - the Australian Indigenous Award is offered to a candidate who identifies as, and demonstrates community acceptance as, an Australian Aboriginal and/or Torres Strait Islander.

Award of RTP and CQUniversity Scholarships

- 5.7 RTP Tuition Offset Scholarships will be offered to all domestic candidates who commence a RTP-eligible Research Higher Degree, except those studying the Doctor of Philosophy by Portfolio. This includes domestic candidates who may be studying outside Australia for part or all of their research degree, as well as eligible candidates transferring from other institutions. An application for an RTP Tuition Offset scholarship is not required. An RTP Fee Offset Scholarship fully extinguishes the candidate's tuition liability for the year in which it is awarded.
- 5.8 CQUniversity Tuition Offset Scholarships may be offered to international candidates studying a research higher degree, subject to availability of part or full-tuition scholarships within the University at time of commencement. An application for a CQUniversity Tuition Offset Scholarship is not required. A CQUniversity Tuition Offset Scholarship may fully or partially extinguish the candidate's tuition liability for the year in which it is awarded. The amount of a Tuition Offset will be advised with a Letter of Offer.

- 5.9 Overseas RHD candidates awarded an RTP Stipend will be offered a CQUniversity Tuition Offset Scholarship.
- 5.10 RTP and University-funded Allowances are provided to eligible candidates in receipt of a Stipend Scholarship. A separate application process does not apply.
- 5.11 All scholarship applicants must meet the relevant entry requirements of the research higher degree course relating to their scholarship, including English language proficiency requirements, where stated.
- 5.12 A summary of the application process for different awards, based on the applicant's mode of enrolment, is provided in the table below:

	Domestic Candidates	International Candidates	Application Process
RTP Fees Offset Scholarship	<input checked="" type="checkbox"/>	<input type="checkbox"/>	None required; automatically applies to domestic candidates who are offered admission
RTP Stipend	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	By application
RTP Allowances	<input checked="" type="checkbox"/>	<input type="checkbox"/>	None required; automatically applies to domestic candidates who are awarded an RTP Stipend
CQUniversity-funded awards (including Women's and Australian Indigenous Awards)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	By application
CQUniversity-funded Allowances	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None required; automatically applies to international candidates who are awarded a stipend scholarship (of any type)
CQUniversity-funded Top-Up Stipends	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	By application
CQUniversity-funded Fees Offset Scholarships	<input type="checkbox"/>	<input checked="" type="checkbox"/>	None required; international candidates who are awarded a stipend scholarship (of any type) may be offered a part or full tuition waiver subject to availability

Award of Stipend Scholarships

- 5.13 RTP and CQUniversity Stipend Scholarships are awarded through a competitive process. An applicant would normally meet the following minimum competitive selection criteria :
- 1) Have completed a Bachelor Degree with First Class Honours, or be regarded by CQUniversity as having an equivalent level of attainment
 - 2) Be undertaking, or approved for admission and enrolling in, a research higher degree program at CQUniversity
- 5.14 Normally only those applicants who have successfully completed a first class honours degree are deemed to have demonstrated the necessary competitive standards of academic merit and research capability appropriate for the award of a scholarship. It is recognised, however, that not all research careers are based on the traditional path of an initial honours degree. Provision is made, therefore, to establish honours equivalency for those applicants who might have a less traditional academic/scholarly background and/or who can demonstrate strong research capability in their field.
- 5.15 Applicants for CQUniversity-funded equity scholarships, such as women's and Australian Indigenous specified awards may be exempted from the requirement to demonstrate first class honours or equivalent.
- 5.16 Current CQUniversity RHD candidates, or those transferring from another institution, are not eligible to receive a Stipend Scholarship if they have already completed student load in excess of the maximum period of support available for each award.

These above timelines are as calculated as at the commencement date of the award, and based on the standard course length as described in the applicable Course Rules.

Applications

- 5.17 The CQUniversity will call for applications for RTP Stipend Scholarships on a yearly basis. This call will be published on the University website as well as in various media outlets. Applicants are required to complete the relevant CQUniversity Scholarship Application as well as a separate Application for Admission.
- 5.18 The CQUniversity will not consider scholarship applications that are incomplete or received after the advertised closing date.
- 5.19 At its discretion, the CQUniversity may call for and/or award, applications for various University-funded scholarships at any time of year.

Establishing the Order of Merit

- 5.19.1 Stipend Scholarships (either RTP funded or University funded) will be awarded by the CQUniversity through a competitive selection process. Individual applications will be ranked on the basis of merit and areas of CQUniversity strategic interest.

Ranking of Applicants

- 5.20 All applicants must be ranked in order of merit, providing they meet the eligibility requirements. A point score system described has been developed to facilitate the ranking of applicants in order of merit. Subsequent offers of award are made in order of rank until the available awards have been filled.
- 5.21 Applicants are expected to have adhered to the guidelines provided in the explanatory notes of the respective award/s being applied for. Failure to do so may result in applications being ineligible for consideration. Only complete applications, with required documentation appended, will be considered. Applicants who have CQUniversity transcripts need not supply official copies, but it is the applicant's responsibility to supply unofficial transcripts.

Establishing First Class Honours or Equivalent

- 5.22 First class honours applicants will need to provide certified documentation evidencing completion one of the following:

Qualification title	Minimum course requirement	Minimum assessment requirement
Bachelor Degree with end-on Honours year	Successful completion of a Bachelor Degree plus an Honours Degree	Honours 1 level
Australian or New Zealand Bachelor Degree	Successful completion of a four year Bachelor Degree with Honours	Honours 1 level
Australian or New Zealand Research Masters Degree (66-100% research component)	Formally graded	Honours 1 level

- 5.23 If an applicant does not hold one of the above qualifications but has qualifications and/or research experience equivalent to a first class honours degree, the scholarship applicant can be assessed for first class honours equivalence.
- 5.24 Applicants holding one or more of the following qualifications require such assessment:
- Bachelor degree with not less than 75% as the highest qualification
 - completed Masters degree by coursework (normally with a grade of not less than 75%) and where the research component comprises a minimum duration of six months

- completed postgraduate qualification (normally with not less than 75% or equivalent and equivalent to one year full-time) plus three years full-time research experience in an appropriately supervised research environment, or three refereed research publications (including co-authored publications) highly relevant to the proposed research topic, and/or
- non-standard qualifications.

Evidence of Results

- 5.25 When establishing qualifications as first class honours or first class honours equivalent, it is expected that all the requirements for the award of degree will have been completed. In cases where final results are unavailable to the selection panel, conditional offers of award may be made.
- 5.26 Certified copies of results or academic transcripts are required as evidence of the successful completion of the most recent and relevant degree. If final results are not available, a letter from the head of program, school or department indicating that the degree is in progress and what the anticipated final result will be is acceptable. Final results shall be submitted at the first opportunity.

Order of Merit

- 5.27 A point score system aims to facilitate the ranking of applicants in order of merit. It provides for a score of up to 50 points for each applicant.

Grade Point Average (0 – 15 points)

- 5.28 Grade Point Average (GPA) is calculated out of 15 excluding the first year of full-time study or equivalent of the most recent and relevant program undertaken. The candidate must provide a transcript that details the scoring method on a percentage basis and provide details of a calculation of percentage grade. Information should be provided on the weighting of grades (i.e. HD = 90%).
- 5.29 GPAs are calculated according to the [Grade Point Average Calculation Procedure](#). Transcript information from the previous 12 months of study, from the applicant's most recent and relevant coursework program, will be used to generate GPA scores. GPAs will be centrally calculated by the Research Division and provided to the Scholarship Committee.

Quality of research proposal and alignment with CQUniversity research priority areas (0 - 15 points)

- 5.30 The application must include details of their proposed research topic, including the research question and method/s by which they plan to study it. This proposal will be considered with regard to the overall feasibility of the project (having regards to timelines and resourcing) and appropriateness to the degree program being applied for.
- 5.31 In addition, applicants must provide a short statement describing their knowledge of CQUniversity's current research priority areas and research environment, and how their proposed research will contribute to research outputs and research culture in these areas.
- 5.32 A list of the CQUniversity's research priorities areas will be published alongside the call for applications.

Evidence of Research Experience and Research Linkages (0 – 10 points)

- 5.33 Up to 10 points can be awarded for research experience and linkages.
- 5.34 Research experience and/or research impact should be demonstrated by providing evidence of relevant research activity such as a published piece of work in a peer-reviewed outlet (e.g. journal, conference paper, book or book chapter); a research higher degree thesis (such as an honours or masters by research thesis); a protected design/software; a recorded performance/exhibition of creative painted, drawn or sculpted work; and providing a statement of contribution. The applicant must provide a statement of contribution where multiple authors/contributors exist.

- 5.35 Alternatively, research experience can be demonstrated through recent and relevant professional experience, including paid employment or voluntary positions that include research-relevant duties.
- 5.36 In judging research experience, the assessors will have regard to the track record of the applicant relative to opportunity.
- 5.37 Evidence of research linkages should be demonstrated by a statement describing current or recent working relationships with prospective CQUniversity research supervisors, or other experts in the proposed field of study.
- 5.38 In addition, a statement of no more than 250 words should be submitted by the proposed principal supervisor, describing how the applicant and project will contribute to CQUniversity research priorities and/or research activities being undertaken in their School/discipline area. Within the 10 points available for this criterion, no more than 2.5 points will be awarded on the basis of information submitted by the proposed principal supervisor.

Evidence of motivation (0 – 5 points)

- 5.39 A maximum of five points can be awarded for evidence of motivation. Evidence of motivation should be demonstrated by providing a statement of research philosophy including what research questions are of interest as well as why the applicant is intending to undertake a research higher degree and what their long term career goals are.

Evidence of writing skills (0 – 5 points)

- 5.40 A maximum of five points may be assigned for the applicant's writing skills, as demonstrated throughout the application and through samples of peer-reviewed publications or other relevant materials produced by the applicant. Where multiple authors/contributors exist on publications or other works, the applicant must provide a statement of the contribution made by that individual.
- 5.41 The Scholarship Committee will disregard co-authored works unless the applicant's contribution to developing and writing the work is made clear.

Scholarship Committee

- 5.42 The Scholarship Committee will meet to moderate and rank applications with a view to establishing a preliminary Order of Merit list. The Committee will be chaired by the Dean, Graduate Studies and comprise of the following members:
- Deputy Vice-Chancellor (Research)
 - Deputy Dean - Research of each School.
- 5.43 The Manager – Research Services and Strategy will provide administrative assistance to this Committee.

Assessment Process

- 5.44 Assessment of the postgraduate research scholarships will be as follows:
- 1) The Research Division will calculate GPAs for all applicants and provide a summary electronic list of applicants
 - 2) The summary list and applications will be sent to the Committee for ranking of scholarships
 - 3) A minimum of two assessors will consider each application and provide scores for ranking purposes. In addition, the Dean, Graduate Studies shall consider all applications and provide scores to be used for moderation purposes, in the event that the original assessors' rankings differ substantially
 - 4) No assessor may provide a score for an application where s/he is listed as the proposed principal or associate supervisor
 - 5) Applications and a summary list will be forwarded by the Research Division to the Committee for moderation

- 6) A Scholarship Committee meeting will be convened by the Research Division and an Order of Merit list drafted. The Scholarship Committee will be chaired by the Dean, Graduate Studies
 - 7) The Committee shall determine the final Order of Merit, including a rank ordered Reserve List
 - 8) The Research Division will commence scholarship outcome notifications once applications for admission are finalised.
- 5.45 Additional guidance relating to the calculation of the order of merit is provided in [Appendix B](#).

Conflict of Interest

A conflict of interest will be deemed to exist where a Committee member is an applicant's present or proposed supervisor, or in such other cases where there is a direct personal or professional affiliation with an applicant. Members must declare their conflict of interest to the Committee Chair and abstain from any discussion of the applicant in question.

6 RESPONSIBILITIES

Obligations of candidates

- 6.1 Scholarship recipients are required to notify the Research Higher Degrees Office within seven days, in writing, if:
- the candidate leaves Australia for reasons other than for approved overseas study, approved suspension or approved recreation leave
 - the candidate discontinues full-time study in their CQUniversity research program and is not approved for part-time study, and/or
 - the candidate is absent for any reason for a period of 14 days or longer from the candidate's place of study, except on approved leave.
- 6.2 An award recipient is required to conform to the regulations (including disciplinary provisions) of the CQUniversity, including all applicable course rules relating to their enrolment; relevant legislation on human and animal experimentation; and the expectations of the CQUniversity in relation to ethical clearances, management of health and safety risks, and research data management.
- 6.3 Recipients of any form of scholarship under the Research Training Program must include explicit acknowledgement of the Commonwealth's contribution, when publishing or producing material such as books, articles, newsletters or other literary or artistic works which relate to the research project carried out with the support of the RTP Scholarship. This includes work generated at any time during or after completion of the research degree.

Appropriate wording for this acknowledgement is as follows: 'This research was supported by an Australian Government Research Training Program Scholarship'.

Obligations of the University

- 6.4 The relevant Course Rules for research higher degrees, together with the [Research Higher Degree Supervision Policy and Procedure](#), outlines the responsibilities of the CQUniversity, schools and supervisors with respect to Research Higher Degree candidates.
- 6.5 Unsuccessful applicants who believe they have reasonable grounds for dissatisfaction with any aspect of the selection procedure may request a re-evaluation of their original scholarship application. Such a request should be made in writing and submitted to the Dean, Graduate Studies not more than 28 days after the date shown on the formal advice of the outcome of the selection procedure.
- 6.6 A candidate who is not satisfied with the re-evaluation of their Scholarship outcome, or with any other formal decision made in respect to the conditions of award, may appeal the decision by submitting a request to the Academic Appeals Committee in accordance with the grounds for appeal, timelines and processes in the [Academic Appeals Policy and Procedure](#).

- 6.7 CQUniversity recognises the importance of providing prompt and fair complaint resolution procedures for candidates, without victimisation for initiating or participating in the settlement. The candidate's enrolment will be maintained while the complaint and appeals process is ongoing.

Compliance, monitoring and review

- 6.8 The Dean, Graduate Studies, Manager – Research Services and Strategy and Research Higher Degrees Committee are responsible for ensuring this Policy and Procedure is followed.

Reporting

- 6.9 The Research Division shall provide regular reports to the Research Higher Degrees Committee regarding the allocation of research higher degree scholarships, and compliance with this Policy and Procedure.

Records management

- 6.10 The Research Division is responsible for records management.
- 6.11 Staff must maintain all records relevant to administering this policy and procedure in a recognised CQUniversity recordkeeping system.

7 DEFINITIONS

- 7.1 Terms not defined in this document may be in the University [glossary](#).

Terms and definitions

EFTSL means equivalent full time study load (one EFTSL is the equal of one year's full time study).

RHD means Research Higher Degree

Notes	This document consolidates and replaces International Postgraduate Research Scholarships (IPRS) – 2015 Conditions of Award Procedure, University Postgraduate Research Awards (UPRA) – 2015 Conditions of Award Procedure, Establishing Order of Merit – Postgraduate Research Scholarships Procedure, International Postgraduate Research Award (IPRA) – 2015 Conditions of Award Procedure and Australian Postgraduate Research Awards (APA) – 2015 Conditions of Award Procedure.

11 APPENDIX

Appendix A: Maximum Rates and Conditions when claiming Allowances

Overseas Health Cover (OSHC)

- 11.1 The Department of Immigration and Border Protection requires overseas students to maintain OSHC for the duration of time they are in Australia. OSHC is insurance to assist international students meet the costs of medical and hospital care that they may need while in Australia. OSHC will also pay limited benefits for pharmaceuticals and ambulance services.
- 11.2 The cost of overseas health cover varies across different insurers, their policies, the type of cover required and the duration of cover. The maximum amount that CQUniversity will provide in Allowances for OHSC shall not exceed the quoted premium with the CQUniversity's preferred supplier, at time of purchase.

Relocation Expenses

- 11.3 The maximum allowance available for Relocation Expenses is \$AU500 for applicant, \$AU500 for a partner; and up to \$AU250 per dependent child, up to a maximum of \$AU1,400 total claim.
- 11.4 Relocation allowances are not payable for travel undertaken after completion of studies, or after termination of the Allowances or Stipend award
- 11.5 An eligible claim for relocation allowance is a claim made by the scholarship recipient for the cost of relocating themselves, their spouse and dependants to a new place of residence to enable the student to undertake their research higher degree. A claim for relocation allowance is not an eligible claim unless the relocation distance is greater than 50 kilometres, and where maintaining the former place of residence would have been a significant impediment to undertaking the research higher degree.
- 11.6 A claim for relocation allowance is not an eligible claim unless
- it is a claim for the cost of air travel, travel by car or removal expenses to the new place of residence, and
 - the candidate has produced complete receipts for the claim.

Appendix B: Reference tables for calculating the Order of Merit

Name:

Current OR Proposed Supervisor:

Table 1: Grade Point Average (GPA) Calculation Sheet

Eligibility Criteria	Evidence (Yes/No)	Comment(s)
Certified academic transcripts (with results) or letter from Head of Program or Dean of School or equivalent		
First Class Honours OR Equivalent (see 1-3 below) 1. Bachelor Degree (Score >75%) 2. Masters by Coursework with research component > 6 months (Score >75%) 3. Other postgraduate qualification (Score >75% and at least one year full-time PLUS 3 years full-time research experience OR 3 refereed publications as author or co-author in the research field proposed).		

Table 2: Order of Merit Scores for Postgraduate Research Scholarships

Criteria	Notes	Out Of	Score Given
Grade Point Average	Taken from certified academic transcript and determined as a mark out of 15 by the Research Division using the method in Table 3 below.	15	
Quality of Proposal and Alignment with Research Priority Areas	Embedded within the application should be a research proposal, plus a statement from the applicant describing their knowledge of CQUniversity's current research priority areas and environment, and how their proposed research will contribute to research outputs and research culture in these areas.	15	
Evidence of Research Experience and Research Linkages	Evidence provided of relevant research activity AND the relative contribution of the applicant if multiple contributors to that evidence. Evidence can include: 1. Peer reviewed outputs (e.g. journal articles, books, book chapters, conference papers) 2. Software or protected design 3. Recorded performance or exhibition of creative work. Periods of research-relevant employment, either paid or unpaid, will also attract points. A statement of current or recent working relationships with proposed CQUniversity supervisors or other research experts in the field	7.5	
	A statement from the proposed principal supervisor, describing how the candidate and project fits with existing research activities and priorities	2.5	
Evidence of Motivation	A statement within the application of the applicant's research philosophy including what research questions are of interest, why the applicant is undertaking the research higher degree, and their long term career goals	5	
Evidence of Writing Skills	Writing skills demonstrated throughout the application and in works appended to the application works, including descriptions of creative works	5	
TOTAL		50	

Undergraduate GPA Calculation Sheet

(This is done by Research Division who should give a score out of 15 for Grade Point Average in Table 2 above)

The GPA will be calculated based on 12 months study in the applicant's most recent and relevant coursework program, and using Table 3 below.

Table 3: Grade Point Average (GPA) Calculation Sheet

High Distinction	Distinction	Credit	Pass	Pass Conceded	Fail	Score/10
10	8	6	4	3	0	

The score out of 10 will then be regraded to provide a score out of 15.
