## Introduction

### STEPS

Skills for Tertiary Education Preparatory Studies (STEPS) is a university enabling course designed to provide students with a pathway to gain entry to and succeed in higher education. STEPS students complete one core unit and a number of electives. The number and type of electives a student takes depends on the intended course of study after STEPS, as well as the results of diagnostic tests completed prior to admission and consideration of the student's personal circumstances. When students enrol in STEPS, an Access Coordinator establishes a personalised study plan designed specifically to develop the student's knowledge, skills and confidence to achieve their learning goals. Upon successful completion of STEPS, students can apply for direct entry to almost any one of CQUniversity's undergraduate courses.

### Direct entry

Direct entry is the process by which students apply directly to CQUniversity for admission to its courses rather than applying through a tertiary admissions centre such as QTAC. Students who complete the requirements outlined in this document can apply for direct entry into CQUniversity's undergraduate courses.

### Responsibility for direct entry requirements

The requirements for direct entry have been determined by the Heads of Course and Discipline Leads of the relevant undergraduate courses in collaboration with the Head of Course, STEPS. These requirements are reviewed regularly and are therefore subject to change.

## Guaranteed-entry and quota-entry courses

Students are guaranteed a place in most undergraduate courses at CQUniversity after meeting the requirements outlined in this document; however, there are a small number of quota-entry undergraduate courses for which entry is based on competitive selection. STEPS students are **not** guaranteed entry into these courses. The Grade Point Averages (GPAs) for quota-entry courses listed in this document are a guide to minimum standards only. STEPS students are advised that higher GPAs may be needed to be competitive for entry into quota-entry courses. In some cases, the Heads of Course/Discipline Leads for these quota-entry undergraduate courses may defer to an interview process to determine selection. The requirements for the two different types of courses, “guaranteed-entry courses” and “quota-entry courses”, are listed in separate sections in this document.

## English Language Proficiency (ELP) requirements

Students who were not born in Australia, Canada, New Zealand, the United Kingdom, Ireland, South Africa or the United States of America will be required to demonstrate their English language proficiency before they can be accepted into an undergraduate course at CQUniversity. As a general rule, STEPS does not meet the English language proficiency requirements for undergraduate courses at CQUniversity.

A more comprehensive explanation of the English language proficiency requirements and the various ways of meeting the requirements can be found on the [CQUniversity website](#).

## STEPS unit descriptions

### **SKIL40025 Preparation Skills for University**

This unit is designed to help students become self-directed, active and confident learners. It introduces them to a range of theories and concepts to facilitate the development of practical skills and positive attitudes necessary for success in university. There will be opportunities for critical self-reflection on key aspects of student life, including: individual learning preferences and study habits; time management and goal-setting; individual study and career paths; note-taking and assessment strategies. Students will practise critical thinking and apply information literacy skills to their research. They will learn to negotiate the procedures and systems used at CQUniversity, and practise communication skills in a range of contexts.

Equivalent units: SKIL40007 & SKIL40008; SKIL40013; SKIL40023 & SKIL40024.

### **COIT40206 Computing Skills for University**

On completion of this unit, students should be able to use a word processor to format the layout of an academic essay and a report. The students should be able to use a spreadsheet to complete a workbook, create simple formula, apply simple functions as well as create and format charts. The students should be able to use the Internet, negotiate a Learning Management System and communicate using email at an academic level. Students should also be able to create a basic Power Point presentation appropriate for university units.

Equivalent units: COIT40207 & COIT40208; COIT40212 & COIT40213; COIT40226; COIT40227 & COIT40228; COIT40229.

### **LNGE40049 Essay Writing for University**

On completion of this unit students should be able to apply the reading, thinking and writing skills necessary for academic purposes utilising appropriate grammar and writing patterns. Students are familiarised with the stages of the writing process and assisted to apply a range of associated learning strategies. In addition, students develop strategies to plan and write paragraphs, using academic language and conventions. They are introduced to research, note-taking and referencing skills for this purpose. They are also encouraged to examine their own worldviews, and those of others, and to develop critical thinking skills. Students have the opportunity to participate in online discussion forums to support their learning. The unit culminates with students planning and writing an academic essay, using independent research skills acquired throughout the unit. Reflective practice is integral to the unit and this enables students to consider the connection between their personal learning journey and the unit outcomes.

Equivalent units: LNGE40040 & LNGE40041; LNGE40054 & LNGE40056; LNGE40059 & LNGE40060; LNGE40062, LNGE40064.

### **MATH40237 Fundamental Mathematics for University**

Fundamental Mathematics for University is designed to provide students with foundation concepts, rules and methods of elementary

mathematics. The main aim of this unit is to provide the fundamentals of mathematics, which are necessary to develop a unified body of knowledge. Topics covered in the unit include operations, percentages, introductory algebra, simple equation solving, exponents, linear equations, introductory statistics, and units and conversions.

Equivalent units: MATH40230 & MATH40231; MATH40232 & MATH40233; MATH40246 & MATH40247; MATH40248; MATH40087.

### **MATH40228 Intermediate Mathematics for University**

Intermediate Mathematics for University is designed to follow on from a study of introductory mathematical concepts, such as Fundamental Mathematics for University, and prepare students for Technical Mathematics for University and/or undergraduate courses requiring an intermediate level of mathematics. Students will complete core and elective modules, chosen according to their future study plans, including simultaneous equations; inequalities and absolute values; quadratic equations; logarithms; functions; geometry; trigonometry; variation, ratio, and proportion; sequences and series; statistics and standard deviation; probability; financial mathematics; and annuities.

Equivalent units: MATH40249; MATH40250.

### **MATH40252 Technical Mathematics for University**

Technical Mathematics for University is designed to follow on from Intermediate Mathematics for University. The completion of both Intermediate Mathematics for University and Technical Mathematics for University prepares students for first year tertiary mathematics in applied science and engineering. The unit provides students with knowledge of various mathematical topics including algebra techniques; trigonometric functions, ratios, and graphs; plane and analytical geometry; introductory vectors and introductory calculus.

Equivalent units: MATH40229; MATH40251.

### **BIOL40108 Introductory Biology**

This unit prepares students for university study in the environmental, biomedical or life sciences. Students will gain an introductory understanding of the main concepts in modern biology, particularly as they relate to humans. This unit covers a range of topics including cell theory, organ systems, genetics, taxonomy, ecology and environmental science.

Equivalent units: BIOL40103.

### **CHEM40079 Introductory Chemistry**

Introductory Chemistry will provide students with a foundation for university study in the chemical sciences. This unit will provide fundamental principles of chemistry by introducing topics such as matter, molecules, bonding, chemical reactions, stoichiometry, acids and bases, and organic chemistry. In addition to gaining an introductory understanding of chemical concepts, students will learn to perform chemical calculations.

Equivalent units: NA.

### **PHYS40110 Introductory Physics**

This unit will prepare students for university study in engineering or the physical sciences. Students will gain an introductory understanding of the basic concepts in physics and learn to apply the principles of physics to solve problems of a physical nature in everyday life. Topics covered in this unit include measurement, motion, forces and mechanics, atomic and nuclear physics, properties of matter, heat and thermodynamics, electricity, magnetism and electromagnetism, waves, and optics. This unit assumes an intermediate level of mathematical knowledge.

Equivalent units: NA.

### **EDED40351 Culture and Learning**

This unit examines the interplay between Aboriginal and Torres Strait Islander cultures and learning, and those experienced at university. First, we examine the concepts of culture and identity, before going on to look at Aboriginal and Torres Strait Islander cultures, identities and ways of learning, followed immediately by an exploration of university culture and ways of learning. This allows us to examine ways in which university culture can work together with Indigenous Australian cultures, combining ways of learning, and our various learning experiences. Finally, we explore university values and the topic of racism at university.

Equivalent units: NA.

### **INDG40015 Indigenous Australians and Education**

This unit provides students with a broad overview of the education of Aboriginal and Torres Strait Islander peoples in Australia. It begins by looking at traditional ways of educating Aboriginal and Torres Strait Islander children, before examining a history of Indigenous education since the colonisation of Australia by white settlers, and seeing how racism still has a major influence on Indigenous education. Students will look at the impact of social factors, such as health issues, housing, remoteness, and poverty on education; and also see how different cultural factors, including Aboriginal and Torres Strait identities, different ways of teaching and learning, and language in particular, affect Indigenous education in Australia. Students will look more specifically at teaching and learning in Indigenous communities, including some case studies. Finally, the unit allows students to explore trends in Indigenous school education, Indigenous vocational education and training (VET) and TAFE, and Indigenous tertiary education in more detail, including the influence that Indigenous Australians have had on mainstream education.

Equivalent units: NA.

### **INDG40016 Indigenous Australians and Health**

This unit offers a broad overview of Indigenous Australian health. It begins by examining Indigenous Australian identity and the health status of Aboriginal and Torres Strait Islander peoples prior to colonisation. This is contrasted with the impacts on Indigenous Australian identity from earlier indifferent practices of governance, to formal government policies of protectionism/segregation, assimilation and self-determination and their profound effects on the health of Aboriginal and Torres Strait Islander peoples. The unit then overviews Indigenous Australian health in the current context, exploring Aboriginal community-controlled health services, Torres Strait Islander health services, primary health care services, differences between Indigenous Australian men's and women's health, health promotion and research, and Indigenous Australian models of health care.

Equivalent units: NA.

## Required study plans for guaranteed-entry courses

Course Code	Course Name	Required STEPS units	Recommended STEPS units	Conditions for guaranteed entry
CL06	<a href="#">Associate Degree of Aviation (Flight Operations)</a>	SKIL40025; LNGE40049; MATH40237; MATH40228	COIT40206; PHYS40110	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CC01	<a href="#">Associate Degree of Building Design</a>	SKIL40025; LNGE40049; MATH40237	COIT40206; MATH40228; PHYS40110	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CB99	<a href="#">Associate Degree of Building Surveying</a>	SKIL40025; LNGE40049; MATH40237	COIT40206; MATH40228; PHYS40110	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CC26	<a href="#">Associate Degree of Digital Media</a>	SKIL40025; LNGE40049; COIT40206		Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CC02	<a href="#">Associate Degree of Engineering</a>	SKIL40025; LNGE40049; MATH40237; MATH40228	COIT40206; PHYS40110	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CA99	<a href="#">Associate Degree of Information Technology</a>	SKIL40025; LNGE40049; MATH40237	COIT40206	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CG48	<a href="#">Associate Degree in Occupational Health and Safety</a>	SKIL40025; LNGE40049; MATH40237; BIOL40108 or CHEM40079	COIT40206; MATH40228	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CC44	<a href="#">Associate Degree in Public Health (Specialisation)</a>	SKIL40025; LNGE40049; MATH40237; BIOL40108 or CHEM40079	COIT40206; MATH40228	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CQ01	<a href="#">Bachelor of Accounting</a>	SKIL40025; LNGE40049; MATH40237	COIT40206; MATH40228	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CQ91	<a href="#">Bachelor of Accounting/Bachelor of Business</a>	SKIL40025; LNGE40049; MATH40237	COIT40206; MATH40228	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.

CL87	<a href="#">Diploma of Business Studies</a>	SKIL40025; LNGE40049; MATH40237	COIT40206; MATH40228	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CC25	<a href="#">Diploma of Digital Media</a>	SKIL40025; LNGE40049; COIT40206		Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CG36	<a href="#">Diploma of Information and Communications Technology</a>	SKIL40025; LNGE40049; MATH40237	COIT40206	Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements.
CC41	<a href="#">Diploma of Music</a>	SKIL40025; LNGE40049; COIT40206		Complete required units; Maintain GPA 4.0 or above; Meet ELP requirements; Pass audition and interview (see Handbook for details).

## Required study plans for quota-entry courses

Course Code	Course Name	Required STEPS units	Recommended STEPS units	Minimum conditions for quota-entry
CV69	<a href="#">Bachelor of Echocardiography and Cardiac Physiology / Graduate Diploma of Echocardiography</a>	SKIL40025; LNGE40049; MATH40237; MATH40228; BIOL40108; PHYS40110	COIT40206; CHEM40079	Complete required units; Maintain GPA 6.0 or above; Meet ELP requirements.
CG92	<a href="#">Bachelor of Medical Imaging</a>	SKIL40025; LNGE40049; MATH40237; MATH40228; BIOL40108; PHYS40110	COIT40206; CHEM40079	Complete required units; Maintain GPA 5.0 or above; Meet ELP requirements.
CG91	<a href="#">Bachelor of Medical Sonography and Graduate Diploma of Medical Sonography</a>	SKIL40025; LNGE40049; MATH40237; MATH40228; BIOL40108; PHYS40110	COIT40206; CHEM40079	Complete required units; Maintain GPA 6.0 or above; Meet ELP requirements.
CB29	<a href="#">Bachelor of Oral Health</a>	SKIL40025; LNGE40049; MATH40237; BIOL40108; CHEM40079	COIT40206; MATH40228; PHYS40110	Complete required units; Maintain GPA 6.0 or above; Meet ELP requirements.
CB85	<a href="#">Bachelor of Physiotherapy (Honours)</a>	SKIL40025; LNGE40049; MATH40237; MATH40228; BIOL40108; PHYS40110	COIT40206	Complete required units; Maintain GPA 6.0 or above; Meet ELP requirements.

\*STEPS students aiming for quota-entry courses must complete their Required Study Plan prior to applying for direct entry, e.g. students must complete STEPS by Term 2, and then apply for direct entry during Term 3 in order to be eligible to start in Term 1 the following year. Students who are on track but yet to complete all required units may be eligible for a “conditional offer” for CG92, CB29 or CB85, but students aiming for these courses should aim to complete their Required STEPS Units before applying in order to maximise the competitiveness of their application.
