1 PURPOSE

CQUniversity has an obligation to provide a work environment without risks to health and safety, so far as is reasonably practicable. This obligation includes eliminating or minimising exposure to electrical hazards. The intention of this policy is to meet or exceed obligations under current legislation.

2 SCOPE

This policy applies to all CQUniversity employees, students, contractors and their employees, and all visitors whilst at CQUniversity worksites including individuals participating in work activities that are conducted off-site.

3 POLICY STATEMENT

All electrical work, repairs, and/or maintenance, no matter how minor the task, will be undertaken by a licensed electrician, in accordance with current relevant legislation, engaged by the Facilities Management Directorate (DFM) or other authorised organisational unit.

The engagement of contractors or other service providers to undertake work at CQUniversity worksites does not absolve CQUniversity of its responsibilities and obligations as an employer. There remains a statutory duty for CQUniversity to ensure its workplace is safe, so far as is reasonably practicable, regardless of any contractual terms and conditions.

Refer to the Safety Health Environment Workcover Sustainability Contractor Management Procedures for further information.

3.2 Where a formal written agreement for property/space exists for CQUniversity use, consideration will be given to the terms and conditions of that agreement. However, only a licensed electrician will undertake such work, and not any alternative considered as a ‘competent person’ such as the holder of a ‘test and tag’ qualification.

4 RESPONSIBILITIES

Compliance, monitoring and review

CQUniversity management have a duty to exercise due diligence to ensure that CQUniversity complies with relevant legislation (e.g. Work Health and Safety Act, Work Health and Safety Regulations, Codes of Practice, Guides).
4.2 CQUniversity employees, students, contractors and their employees, and all visitors at CQUniversity worksites (including work activities that are conducted off-site) have a duty to take reasonable care for their own health and safety and must not adversely affect the health and safety of other persons. They must comply with any reasonable instruction and co-operate with any reasonable policy or procedure relating to health and safety at the workplace.

4.3 The Occupational Health and Safety (OHS) Unit will assist management and others to facilitate compliance, monitoring and review. Refer to Work Health and Safety Roles and Responsibilities Procedure.

4.4 The Facilities Management Directorate will be responsible for funding, coordinating, monitoring and reporting on 'test and tag' requirements as per the Australian Standards for equipment under its control (including all specialised and plug-in equipment).

### Reporting

4.5 Serious electrical incidents or dangerous electrical incidents are defined by legislation. This reporting procedure ensures the safety of individuals and compliance with legislative requirements.

4.6 The below reporting requirements will be followed during a serious electrical incident or dangerous electrical incident.

#### Individuals

4.7 Initiate urgent corrective action to ensure the safety of all for electrical incidents deemed to have potential to cause injury or results in an individual being injured. This may include calling emergency services directly as required.

4.8 Once corrective action undertaken, report the incident to the work area supervisor.

4.9 Once assessed by the work area supervisor, report the incident to the National OHS Manager (or nominee) and the Director, Facilities Management (or nominee).

**Work area supervisor**

4.10 Assess the corrective actions, re-assess the situation to ascertain the safety of all, and ensure the preservation and security of the site for relevant authorities.

**Director, Facilities Management**

4.11 Conduct the preliminary investigation and initiate immediate corrective actions to eliminate the risk (e.g. engaging a licensed electrical contractor to conduct repairs, notifying the appropriate authorities).

**National OHS Manager and Director, Facilities Management:**

4.12 Investigate and compile the necessary incident reports.

### Records management

4.13 Staff must maintain all records relevant to administering this policy in a recognised University recordkeeping system.

### DEFINITIONS

5.1 Terms not defined in this document may be in the University glossary.

5.2 Other definitions in relation to Work Health and Safety can be located in the respective legislative documentation (e.g. Work Health and Safety Act, Work Health and Safety Regulations, Codes of Practice, Guides).
