1 PURPOSE

1.1 This policy and procedure provides guidance on undertaking intramural professional practice within CQUniversity Health Clinics.

1.2 Intramural professional practice means paid professional healthcare-related practice undertaken by approved CQUniversity staff, within a CQUniversity-run clinic or health service.

2 SCOPE

2.1 This policy and procedure applies to CQUniversity staff who are approved to engage in the delivery of clinical health services from within a CQUniversity-run clinic.

2.2 This policy and procedure does not apply to:
   - staff wishing to undertake professional practice in settings other than a CQUniversity-run health clinic, or
   - non-clinical staff seeking to carry out activities in external settings.

3 POLICY STATEMENT

3.1 CQUniversity recognises the synergies of professional practice, teaching and research, and benefits that can be achieved through supporting the development of a strong community of clinical and professional academics.
3.2 As such, CQUniversity endorses and encourages staff with clinical expertise and registration to maintain and improve their expertise by becoming involved in either intramural professional practice or private practice within CQUniversity-run clinics.

3.3 Intramural professional practice is available to approved staff who:
   • need to maintain clinical/professional credentials, and
   • can contribute to the viable operation of a CQUniversity-run health clinic through their professional practice.

3.4 A proportion of the practice fees collected in return for intramural professional practice services, and/or direct charges for the use of CQUniversity health clinic facilities, will be payable to the University to cover costs incurred in supporting the professional practice. These percentages/charges will be determined by the University and in accordance with the principles outlined in Appendix 1.

3.5 Intramural professional practice should be structured and delivered in a way that ensures practice fees payable to the University will cover all costs incurred by the University in supporting the professional practice. Should the University determine that a staff member’s intramural professional practice is not self-supporting, approval for the staff member to conduct intramural professional practice will be reviewed and may be withdrawn.

3.6 Basic services will be provided by the University to support intramural professional practice. Basic services, and services outside of the scope of what will be provided by the University are listed in Appendix 2.

3.7 Workload allocation for professional practice (including intramural professional practice) will be determined in consultation between the staff member and the Dean of Health, Medical and Applied Sciences.

3.8 Engagement in intramural professional practice will be acknowledged within the staff member’s work allocation. Intramural professional practice will normally constitute load for scholarship, research and/or service dependent on the nature of the practice undertaken, but will not normally incur a reduction in teaching load in the School, except where the professional practice is conducted within a teaching context involving scheduled student teaching activities (e.g., demonstrating clinical skills to students or supervising students undertaking clinical activities).

3.9 Intramural professional practice will not exceed 180 hours for a full-time appointee in a six month period, or proportionately less in the event that a staff member is employed on a fractional basis.

3.10 Staff members are expected to undertake all work associated with their intramural professional practice in the time allocated, without detriment to their other workload requirements (including teaching, scholarship, research and service).

3.11 Intramural professional practice will be conducted to:
   • be consistent with the mission and values of CQUniversity
   • deliver a demonstrable benefit to the University
   • develop and enhance the reputation and standing of the University, and
   • Where practicable, contribute to the advancement of learning, research, scholarship and the clinical reputation of the University.

3.12 Intramural professional practice must only be undertaken by a staff member who is:
   • approved to practise by the CQUniversity Health Clinic Advisory Group, and
   • a Physiotherapist registered with the Physiotherapy Board of Australia, AHPRA
   • a Chiropractor registered with the Chiropractic Board of Australia, AHPRA
   • a Podiatrist registered with the Podiatry Board of Australia, AHPRA
   • a Dietician, with acceptable qualifications, as approved by the CPC
   • a Speech Language Therapist, with acceptable qualifications, as approved by the CPC
• an Occupational Therapist registered through Occupational Therapy Board of Australia, AHPRA
• an Exercise Physiologist registered with Exercise & Sport Science Australia, ESSA
• appropriately authorised staff of who are registered as a Dental Practitioner registered with the Dental Board of Australia, AHPRA
• appropriately authorised staff of the School of Applied Psychology who are registered as a Psychologist with the Psychology Board of Australia, AHPRA.

3.13 Intramural professional practice shall not compete with other University business, including CQUnergy health clinic business. It shall not affect the clinical activity or clinical supervision for the student led clinic.

4 PROCEDURE

Administration and disbursement of income

4.1 Fees to be charged to patients/clients for treatment provided through intramural professional practice will be in accordance with CQUnergy Health Clinic’s Fee Charging Procedure.

4.2 Once treatment fee schedules have been determined, the staff member undertaking the intramural professional practice will ensure that processes are in place to accurately record treatment undertaken so that accurate fees can be calculated and subsequently charged to the patient/client.

4.3 Invoices will be generated from the Patient Management System (PMS) used within the clinic and there will be a reconciliation between the PMS Debtors and the General Ledger of the Finance Reporting System. Invoices will be issued under CQUnergy, however the individual staff member's private provider number must be displayed on the CQUnergy invoice.

4.4 Costs shall be recovered directly from the fees collected by the University from patients/clients before the disbursement of income to the staff member occurs (in accordance with Appendix 1).

4.5 The University reserves the right to levy either an appropriate percentage of income generated by a staff member's intramural professional practice and/or a flat fee per hour through which costs incurred by the University in supporting the intramural professional practice may be recovered.

4.6 Fees/charges recovered by the University will be determined by the University as indicated in Appendix 1, taking into consideration the specific costs/overheads incurred by the University in supporting clinics, and the standards that apply to managing income for the discipline within similar clinical services external to the University.

4.7 In the event that insufficient income or no income (e.g., as a result of pro bono work or bad debts) is generated by a staff member's intramural professional practice, the University shall impose a charge on the staff member to meet the costs incurred by the University.

• The Deputy Vice-Chancellor (Finance and Planning), in consultation with the Manager, Health Clinic will determine, in accordance with Appendix 1, the charges retained by the Clinic and host School to meet the costs associated with the professional practice incurred by the Clinic and host School.

• The Deputy Vice-Chancellor (Finance and Planning) in consultation with the Manager, Health Clinic will determine the charges that will be retained by the University to meet the costs associated with the professional practice incurred by the University.

• Staff members undertaking intramural professional practice shall comply with any terms and conditions set by the Provost and/or Deputy Vice-Chancellor (Finance and Planning) with respect to charges levied to recover costs incurred by the University.

4.8 Staff undertaking intramural professional practice will abide by the decisions of the University with respect to percentages of practice fees/charges payable to the University.

4.9 Income collected by the University from intramural professional practice, after deductions have been made, may only be taken as salary at the time that it is disbursed by the University to the practitioner following the quarterly reconciliation of clinic finances.
4.10 It is the responsibility of the staff member to ensure that any income taken as salary or collected directly from patients/clients is appropriately reported to the Australian Taxation Office for taxation purposes.

**Insurance**

4.11 It is the responsibility of the staff member to ensure that any insurance coverage obtained privately is up to date and a copy is provided to the University. It is recommended staff members’ insurance is valid as required for registration.

**Process for approval of intramural professional practice**

4.12 A written application must be submitted regardless of whether the professional practice will be offered for payment or on a pro bono basis.

4.13 Applications will be considered for intramural professional practice on the following basis:

- suitability and viability of the proposed clinical service
- suitability of the clinician to engage in clinical practice within CQUUniversity Health Clinic
- the University’s policies (e.g., Code of Conduct, Conflicts of Interest, etc.).

4.14 Applicants must submit a written application to the Manager, Health Clinic. If approved, the Manager Health Clinic will forward to the Dean of Health, Medical and Applied Sciences for approval.

4.15 The Dean of Health, Medical and Applied Sciences is authorised to determine the extent (if any) to which intramural professional practice may be made available to staff within their School, considering staff and financial resource implications to the School. If an application is approved, the Dean will forward to the CQUUniversity Health Clinic Advisory Group for final approval.

4.16 Applicants will be notified in writing of the outcome of their application, including any limitations or conditions.

4.17 Approval may be given for up to three years at a time, though continued privileges are reviewed every two years.

4.18 At the conclusion of an approved term, the staff member may reapply to undertake a further term of intramural professional practice through the same process outlined above.

4.19 Deans will maintain a register of all approved requests for professional practice relating to staff within their School.

4.20 Subject to contractual conditions, the Provost may at any time grant, refuse, reduce, suspend or withdraw any staff member’s right of intramural professional practice.

**Performance management of intramural professional practice**

4.21 Staff approved to deliver intramural professional practice will report on their performance through the PRPD process under the workload category/s in which they have been approved to undertake the practice.

4.22 If a staff member’s intramural professional practice activities are deemed unsatisfactory by the Dean of Health, Medical and Applied Sciences, the Provost may reduce or withdraw the approval for the staff member to continue.

4.23 An annual statement outlining approved professional practice undertaken by staff in each School over each calendar year will be prepared by the relevant Dean and submitted to the Provost in November each year.

**Dissatisfied patients/clients**

4.24 Any claims of dissatisfaction with the standard of treatment provided by a staff member undertaking intramural professional practice will be reviewed in accordance with the relevant, procedures and guidelines relating to patient or client complaints.
4.25 Complaints should be resolved either within the Clinic or the host School where possible.

4.26 In the event of a serious complaint or where a complaint is escalated it should be referred the Manager, Health Clinic and the Dean of Health, Medical and Applied Sciences.

4.27 The Provost may reduce, suspend or withdraw a staff member from intramural professional practice during the review of a complaint from a dissatisfied patient/client. The staff member involved must however continue to participate in the investigation and review of the complaint.

**Leave and cessation of intramural professional practice**

4.28 Staff members engaged in intramural professional practice should inform their supervisor, the relevant clinic lead and the clinic reception of any annual or other planned leave at least four weeks in advance of taking leave.

4.29 The staff member is responsible for ensuring that appropriate cover has been arranged for the ongoing management of their patients/clients during their absence.

4.30 In the event of unforeseen leave for sickness or emergency, the staff member must inform the clinic reception as soon as is practicable in accordance with the relevant clinic procedure, procedures or guideline.

4.31 At completion of intramural professional practice, the staff member must ensure that satisfactory arrangements are in place for the continuing care of patients/clients.

**Practitioner responsibilities to meet and maintain pre-practice requirements**

4.32 Any staff member wishing to practise in a CQU Health Clinic must hold and maintain evidence that they have met and continue to meet the pre-practice requirements determined by the Health Clinic Advisory Group, including:

- provider/prescriber/registration/licensing details
- professional qualifications
- professional supervision arrangements
- Relevant and applicable certificates of insurance
- immunisation status
- first aid qualification
- criminal record checks
- evidence of compliance with continuing professional development requirements of the professional registering body, and
- assurance that no conflict of interest applies with respect to the intramural professional practice and in accordance with the [Conflict of Interest Policy and Procedure](#).

4.33 Compliance with this procedure is required as follows:

- follow occupational health and safety policies and procedures relating to work being undertaken in order to ensure high quality services and workplaces
- deliver services appropriate to clients’ needs and available resources using best practice guidelines; leading the provision and development of a safe competent health service
- participate in the planning, development and review of policies and procedures in relation to the health clinic service
- identify organisational issues, recommending change options and facilitating the implementation of change
- undertake relevant duties as directed, consistent with skills and training
- assist in health promotion activities within the clinic and community when the need arises.
• complete the CQUniversity Health Clinic orientation
• all patients/clients of a CQUniversity health clinic (or their legal guardian) will receive clear information about their treatment, options, risks, benefits, costs and likely outcomes so that they can make informed decisions about their care
• all patients/clients of a CQUniversity health clinic will receive high quality and appropriate treatment which is delivered in accordance with accepted professional, ethical and service quality standards
• all patients/clients of a CQUniversity health clinic (or their legal guardian) will have the opportunity to decline or consent to treatment free from coercion, and informed consent will be required from all patients/clients (or their legal guardian) for treatment provided.

4.34 The staff member must be able to produce evidence that they hold current clearances with respect to pre-practice requirements, and must notify the relevant Dean and the Manager, Health Clinic if there are any changes in their status with respect to meeting or maintaining pre-practice requirements.

4.35 If there are changes in the status of a staff member undertaking intramural professional practice which would impact the staff member’s ability to continue to practice, the Provost may reduce, suspend or withdraw the right to practice until the required pre-practice requirements have been obtained.

5 RESPONSIBILITIES

Compliance, monitoring and review

5.1 The clinical service will be reviewed by the Manager, Health Clinic every six months to ensure the viability, effectiveness and impact on current and future health clinic activities.

5.2 Clinical audits will be conducted as set by the CQUniversity Health Clinic Guidelines relevant to discipline.

Reporting

5.3 An annual report will be provided by the Manager, Health Clinic to the Dean of Health, Medical and Applied Sciences on the occasions of service, fees collected and completed audit schedule.

Records management

5.4 Staff must maintain all records relevant to administering this procedure in a recognised University recordkeeping system.

6 DEFINITIONS

6.1 Terms not defined in this document may be in the University glossary.

Appendix 1 - Income calculations

10.1 Staff members may choose to have their income calculated in one of two ways – this will be negotiated after an application for intramural practice has been submitted.

10.2 Staff members granted rights of intramural professional practice will receive 60% of the net earnings from their own patient/client income earned from treatment provided within CQUniversity Health Clinics. The remaining 40% shall be retained by the University to cover costs incurred in supporting the professional practice. The fee is negotiable dependent on discipline and clinical activity.

10.3 Technical laboratory fees may be costed directly to a patient/client in addition to the standard fee schedule.

10.4 At the end of each quarter, the clinic administrator will reconcile all intramural professional practice receipts for that quarter, and determine the appropriate amount to be paid to the relevant staff member.

10.5 Staff members granted rights of intramural professional practice will be charged a flat per-hour fee charge for use of clinic space. Practitioners will be responsible for collecting client fees, and managing the administration of their practice.

10.6 The clinician will reimburse the University at the end of each month for the rooms booked during the month.

10.7 The clinic administrator will reconcile all intramural professional practice room bookings at the end of each quarter, and ensure the appropriate amount was paid by the relevant staff member to the University.

Appendix 2 - Clinical facilities

10.8 Basic services that will be provided by the University to facilitate intramural professional practice include:

- access to approved clinic facilities/rooms
- access to University insurances, indemnity and medical malpractice
- limited reception services
- standard resources, equipment, facilities and consumables generally available within CQUniversity Health Clinics that are required to support the approved practice
- a dental assistant, in the case of dental intramural professional practice
- other standard services as deemed necessary by the Provost.

10.9 The list below specifies services outside of the scope of services that shall be provided by CQUniversity Health Clinic to support intramural professional practice or private practice clinic. The University may agree to supply the below services, however reserves the right to pass on the costs associated with the provision of the services to the practitioner through fees/charges over and above the standard fees and charges specified in this procedure:

- patient/client recruitment to support intramural professional practice or private practice clinics
- provision of personalised or specialised clinic stationery (e.g., referral pads) beyond the scope of the stationery normally supplied by the Clinic for use by clinicians
- medical typing services, including typing of correspondence to patients and clinicians related to intramural professional practice or private practice clinics. Clinicians wishing to access medical typing services may either:
  - source their own services external to the University, or
  - make arrangements for the CQUniversity Health Clinic to procure the services of a medical typist on their behalf, the costs of which will be passed on in full to the clinician.
- specialised resources, equipment, facilities and consumables which are not generally available within the CQUniversity Health Clinic.

This list may be amended from time to time on the approval of the Provost.
