

RISK APPETITE STATEMENT

BE WHAT YOU WANT TO BE

cqu.edu.au

OUR VISION is to be Australia's most accessible, supportive and engaged university, recognised globally for innovative teaching and research excellence.

OUR PURPOSE is to provide world-class, transformative education and research for our students, partners and communities across Australia and internationally.

OUR VALUES - Engagement, Can Do, Openness, Leadership, and Inclusiveness.

RISK APPETITE

This risk appetite for CQUniversity outlines where we are willing to engage with higher levels of risk for a greater benefit and to achieve our strategic goals. Understanding our risk appetite assists in decision-making across the University but may vary between work areas, depending on the work being carried out.

OVERALL RISK APPETITE STATEMENT

The University's approach is to minimise our exposure to risks relating to our compliance responsibilities, environment, safety and culture, whilst accepting and supporting an increased degree of risk in pursuit of our vision and strategic goals as set out in the *Our Future Is You Strategic Plan (2019-2023)*. It recognises that our appetite for risk varies according to the activity undertaken, and that our acceptance of risk is subject always to ensuring that the potential benefits and risks are fully understood before developments are authorised, and that sensible measures to mitigate risk are established where required.

RISK APPETITE STATEMENT PARAMETERS

- The Risk Appetite Statement is not an exhaustive list that addresses every situation but provides general guidelines.
- Everyone is empowered to interpret the Risk Appetite Statement to make pragmatic, risk-based decisions in the best interest of the University and its stakeholders.
- The Risk Appetite Statement is a forward-looking expression of risk appetite. It reflects our tolerance for accepting new or developing risks (in addition to current risks) in achieving the University's strategic goals.
- Our risk appetite and risk tolerance are dynamic and will change over time in response to different risk drivers.
- All decisions align with the University's Strategic Plan, Vision, Purpose and Values.
